THE WEATHER
Fair tonight and Friday.
No relief in sight.

VOLUME XVI | THE CLEARFIELD PROGRESS, CLEARFIELD, PA., THURSDAY EVENING, OCTOBER 5, 1922. | NUMBER 233

SECOND GAME 3-3 IN TENTH

BUSINESS MEN OF THREE COUNTIES TO ASK FOR OLD ROAD

Clearfield-Elk-Cameron People Want Original Route Restored to Road System And Built.

IMPORTANT LINK

The Second meeting of a number of the leading citizens of Clearfield, Elk and Cameron counties interested in an improved road across the northern central part of the State, was held at St. Mary's Pa., yesterday and was attended by twenty-seven persons. The movement which was originated by the Chamber of Commerce of St. Mary's was brought to the attention of Clearfield people about two weeks ago when representatives of St. Mary's and Emporium came here to attempt to interest the Clearfield County Good Roads Association and Clearfield people generally in their proposition to have restored the original Sproul route across the county seats of Clearfield, Elk and Cameron counties, and incidentally link up northern and central Pennsylvania by means of the Lakes to the Sea Highway and incidentally up through New York State to Buffalo.

This proppsed road is a direct route or outlet both north and south for Elk and Cameron counties and the people of that section are very anxious to have this road restored to the primary routes through the State as it was originaly intended when the plan was first presented to the State Legislature by Governor—then Senator—William C. Sproul. Through the shortsightedness of the legislators in the counties vitally interested this important route was allowed to be stricken from the plan.

Yesterday's meeting at St. Mary's resulted in the formation of a temporary organization styled "The Clearfield, Elk and Cameron Improved Road Association" with B. C. Mulhearn, o St. Mary's as Chairman and William E. Matthews, Secretry of

(Continued on Page Seven)

WILL YOU HELP TO SAVE THE FISH IF A WAY IS FOUND?

The unprecedented drouth with its consequent drying up of the mountain streams will almost depopulate the trout streams hereabouts as the extreme scarcity of water makes it possible for all the natural enemies of the trout to prey upon them at will and persons who have been along the streams say the coons have regular paths along the banks of every stream where at low they are nightly pursuing the trout to their death, while watersnakes and fish hawks of every description are despoiling the streams of their hard-pressed finny inhabitants daily.

Fishermen and conservationists generally should take advantage now of the present serious situation to guard against such destructiveness as is pictured here, in the future, by organizing and going out upon the different streams and building small dams every couple of hundred yards for the purpose of providing deeper water rendezvous for the trout when the next drouth and low water comes.

These dams could easily be fashioned out of rocks and brush and need not be very artistically or expensively constructed but would do a world of good. One day's work by twenty-five men on Trout Run, Lick and Stone Runs, Cold Stream, Moose Creek, Montgomery, Stony and Little Anderson would accomplish wonders for the future.

Now is the time to act boys; let's get busy. Who'll go along? Telephone your name in or come to The Progress office right away quick and let us organize for the work.

State Sunday School Association To Meet At Lancaster Oct. 11

Lancaster, Pa., Oct 5. (U P)—The annual convention of the Pennsylvania Sunday School Association will be open here October 11 and continue three days.

Hundreds of delegates from every section of the State are expected to attend the State convention.

The awarding of service medals to every individual who can show a record of having served for 50 years as an official in a Sunday school will be the novel feature of the session.

OHIO BATTLEGROUND OF WETS AND DRYS; ELECTION NOV. 7TH

Ohioans Will Vote On Beer and Light Wine Amendment After Big Fight In The Courts.

RESULT IS IN DOUBT

By E. J. JOHNSON
(United Press Staff Correspondent)

Columbus, O., Oct. 5.—Ohio this fall becomes the battleground of prohibition.

The first real test of popular sentiment towards the Volstead act will be made at the polls November 7

The proposed "beer and light wine" amendment to the State constitution, following a long fight against its submission to the voters, has finally been ordered on the November ballot by the Ohio supreme court.

The Anti-Saloon League of America, however, intends to appeal the case to the federal court.

The proposal's submission to the people will result in the fiercest wet and dry battle since the eighteenth amendment became effective.

Controversies between wets and drys in Ohio began several months ago when the Association against the prohibition amendment secured 240,000 signatures to a petition calling upon Secretary of State Smith to submit an amendment to the State constitution to the people legalizing the manufacture and sale of beer and light wine. Smith immediately rejected the proposed amendment on the grounds that it would be unconstitutional if adopted.

Mandamus proceedings brought against the Secretary of State by proponents of the amendment resulted in the supreme court's order that the proposal be placed on the ballot.

Adoption of the amendment will not mean Ohio will have beer and wine in contravention of [illegible] would, however, invalidate existing State laws which are in conflict with its provisions and put enforcement

FULL REPORT OF GAME ON PAGE TWO

GOOD SHIP "CLEARFIELD" LAUNCHED AT NEWPORT, WASHINGTON, SEPTEMBER 27th

An event of considerable interest to Clearfielders is found in a clipping from the Spokane Daily Press of Spokane, Washington. It will be a matter of pride that a real sporty-looking launch of hefty dimensions was launched at Newport, Washington, last Friday and that a Clearfielder out that way saw to it that she was christened with good old Susquehanna aqua and given the glorious name of "Clearfield." Long may she float! Following is what the Spokane paper says.

Newport, Wash., Sept. 27.—Nellie Weaver, youngest daughter of W. B. Weaver, superintendent of the big Ione Panhandle Lumber Company mill, tomorrow afternoon here will christen the new Panhandle Lumber Company's tug Clearfield with a bottle of water from the Susquehanna river, as it slips down the ways into the Pend Oreille river. The boat was given the name of Clearfield after Clearfield, Pa., the old home of John Dimeling of the Panhandle company, now located at Spirit Lake, Idaho.

The craft, 65 feet over all, with a beam of 17 feet and a 6-foot depth of hold, was constructed specially for shallow river work by Phil Mitchell of the Mitchell Boat Works, Coeur d'Alene, Idaho. It is equipped with twin 55 horsepower Atlas Imperial Deisel engines, towing engine, geared anchor winches, electric lights, and is of the tunnel stern design, each propeller turning in a tunnel above the keel. The maximum draft is three feet.

Captain James Stewart and Captain Flanders, both old-time river skippers here, aided in the construction. The Clearfield will handle logs, booms, poles and barges between here and Ione.

LATEST DISPATCHES FROM WAR ZONE IN THE NEAR EAST

Constantinople, Oct. 6.—The Turks are moving into Kandra, adjacent to the Ismud neutral zone, and their move is looked upon with alarm as it is a strategic position It is looked upon as a move to intimidate the Allied forces The Mudania peace conference is credited with being highly successful in accomplishing the aims set out to accomplish. The protocol provides for the Turks return to Eastern Thrace and the evacuation of the Straits by the British.

Greeks Oppose.

Athens, Greece, Oct. 5.—The curse of war hung over Greece today with the rallying to the colors of practically all military classes. The populace is stirred to indignation by reports that the Turk is to return to Europe and that a portion of Thrace is to be given to the Turks. Fanatical speakers are going about the city urging war. Premier Venizelos is said to have counseled the cabinet to oppose the terms, especially the evacuation of Thrace.

Great Demand For Home Brew Containers Keeps Pop Makers On Lookout

Mt. Carmel, Pa., Oct. (U. P.)—Guarding containers is more of a problem to home brewers here than the gathering of grapes, other fruit or malt and hops.

Bottlers are having difficulty in getting returns on their containers. One soft drink bottler has lost two and a half car loads of bottles in a year.

One resident was making wine and set out a keg in the sun to dry before filling it with the "sparkling fluid." When he went out after the keg it had disappeared.

THEATRE SEASON OPENS AT DRIGGS NEXT WEDNESDAY

Abounding with birsk and snappy tunes, sufficiently funny to give an audience its money's worth of laughter, "Shuffle Along" comes to the Driggs Wednesday night, October 11. No musical comedy that has come to New York, has created such a stir, set all the city talking and so thoroughly aroused the theatrical appetite as "Shuffle Along," the first colored cyclonic musical comedy to reach Broadway since the days of Williams and Walker over ten years ago. For two years "Shuffle Along" played to capacity business at the Sixty-third street Music Hall. The best of talent of the colored profession has been secured, including a special orchestra and a "bronze beauty" chorus.

WEATHER DOPESTERS PROMISE NOTHING FOR NEXT 48 HOURS

Washington, D. C., Oct. 5.—Official weather forecasters of the United States Government today said that for the next forty-eight hours, which is as far ahead as they will predict, there is no relief in sight from the twenty-five-day dry spell which is working havoc in the eastern part of the nation, particularly Pennsylvania. Bureau statistical experts say, however, that contrary to general opinion, the present situation is not unusual.

"THIS LADY HAD NINE CALLERS ONE EVENING

Did you ever try a Progress Classified ad? If you didn't why don't you? That is if you have anything you want to sell, or anything you want to acquaint the people of this community with.

We had a patron of the classified column come into The Progress office this morning and tell us of her experience. She inserted a classified ad. on Saturday. The paper was on the street that afternoon at 4 o'clock. During Saturday evening there were nine calls in answer to the four line ad. and up to last night the total responses numbered thirty-nine, and she demanded the ad taken out to save her peace of mind and give her time to attend to something else.

If you doubt this story try the Classified ad column for yourself. Then you'll find out for yourself. We guarantee results.

WOMEN GETTING ALL SET TO FINISH THE JOB THEY STARTED

Anybody who thinks that the women of this city are not interested in politics has not made a very thoro examination of political conditions. In the first place it was the women's vote very largely that made Gifford Pinchot the Republican nominee for governor, and if we know anything about boxing, with that blow they made the enemy groggy and on November 7th, they are going to deliver the knockout punch and send all of Gifford's political enemies through the ropes and land Mr. Pinchot and those he has endorsed as in harmony with his plans in the State capitol and State Senate and legislature.

Indicating the interest of the women of this city are the plans of several women from all sections of the city and from all walks of life to hold a political meeting for the women at the Arbitration Room of the Court House on Friday evening at eight o'clock. It is anticipated that a large crowd of women voters, and many who have not yet voted, but are considering it in order to obtain redress for taxation inequalities and other injustices, will be in attendance. There will be some good speakers present and a pleasant evening is anticipated by all. Don't forget the date and time—Friday of this week at eight o'clock.

FIREMEN PARADERS AT HARRISBURG CALLED TO DUTY

Harrisburg, Pa., Oct. 5.—A two-alarm fire which destroyed two frame garages broke out here just before thousands of firemen swung in to line for the big parade being held at the Forty-third Annual State Firemen's Convention. Thousands of the red-shirted firemen answered the fire call and quickly demonstrated just what could be done to an impudent an insolent blaze that would rear its head at such a moment.

HOOVER ILL AT NEW YORK

New York City, Oct. 5.—Herbert Hoover is quite ill at the Hotel where he is staying here. He had intended to address the Banker's convention here today but was too ill to attend.

'WOMEN DISHONEST' SAYS NEWSPAPER OF NON-TAXPAYERS

Given Legal Opinion Of Their Status; Attorney Does Some Peculiar and Faulty Reasoning.

IS A BAD MUDDLE

The DuBois Express, a Democratic organ of the city of DuBois, and one of the only two papers in Central Pennsylvania we know of that is knocking the Prohibition Amendment in favor of wines and beer, and anything else that can be slipped over the bar when a dry officer isn't looking, went to the trouble to get a DuBois attorney to give an opinion on the matter of taxation for women, and on the basis of that opinion on and on the basis of that opinion call the women who refuse to pay the full amount of taxes "dishonest."

The Progress does not question the legal opinion so eagerly sought. We do, however, question the good judgment of the reporter who hurls a charge of dishonesty because of a righteous protest over a gross inequality recently inflicted on our system of taxation which was indeed bad enough before occupation taxes were heaped on the housewife, to add to the burden of the average family. The Progress urges the payment by women, of the county tax so that they can participate in future elections and help get this thing straightened out.

The brilliant lawyer says: "What the woman does not pay, her husband will have to help make up, or the reason that it takes a certain amount of money for purposes of government, and if it is not paid in per capita tax, it must be paid by raising the millage.' He might have added this:

The increased cost of government is being paid by the assessing of women, and in effect is equal to an increase in the assessment of her husband's occupation and with the result that his per capita tax is doubled. Unmarried men, large holders of real estate for speculation purposes, and other taxables escape altogether. The poor devil who is married and raising a family is making up the deficiency.

That is the truth of the matter.

Here is the Wail of The Express

Obviously because of an erroneous belief caused by the circulation of groundless rumors more than half of the women tax payers are placing themselves in the same category as one who refuses to pay an honest debt, by their refusal to pay school taxes.

The word has gone out, and has been widely circulated, that the school tax cannot be collected, and while this is true in some respects, the fact remains that the tax is an honest debt just the same as the city tax and the county tax, which the women are paying. Furthermore, it can be collected in many instances, and many of the women of the city who have refused to pay the $5 assessment are going to be surprised when legal steps are taken to collect the tax.

At the office of City Treasurer O S. Sutter today, it is learned that for some reason or other, more than fifty per cent of the women paying their taxes, have refused to pay the per capita tax for school purposes.

Legal enlightment on the question is forthcoming in the following dis-

(Continued on Page 4).

Throngs Wait Outside World Series Gates

Waiting hundreds spent the night before the first world series game in line outside the gates at New York. The most popular form of kill time was discussing anent the merits of the two teams Each new edition of the papers was eagerly bought as it was published and read by the flickering light of candles.

Hornet Nest Gift To Dear Teacher Almost Broke Up This School

Pittsburg, Pa., Oct. 5. (U. P.)—Two boys on their way to school noticed a perfectly-formed hornet's nest They cut it down and gave it to the teacher, Miss Alvina Pratt, who placed it in view of the class and said it was an example of patience and hornet workmanship.

The day grew warm and the supposedly empty nest thawed out and in a short time the room was filled with hornets. Miss Pratt and a dozen or more pupils were stung. Class was dismissed for the day.

REV. HAD PLANNED TRIP TO FAR JAPAN; HAD $40,000 CASH

New Brunswick, N J., Oct. 5.—Rev Edw W. Hall, slain pastor, whose body was found with that of the wife of the church sexton, on Sept 16th, had $40,000 in negotiable securities ready to be converted into cash preparatory to a trip to Japan, the authorities announced here today.

Hectic Session With Meusel Boys As Big Swatters

The second game in the 1922 world's series ended in a ten-inning tie. At the end of the tenth a brief "council of war" between the umpires and managers resulted in the announcement that the "game was called" on account of darkness.

AS THE TEAMS LINED UP

YANKEES.			GIANTS.		
Name.	Pos.	Bat. Ave.	Name.	Pos.	Bat. Ave.
Witt,	cf	.301	Bancroft,	ss	.321
Dugan,	3b	.287	Groh,	3b	.267
Ruth,	rf	.316	Frisch,	2b	.329
Pipp,	1b	.329	Meusel,	lf	.331
Meusel,	lf	.323	Young,	rf	.332
Schang,	c	.325	Kelly,	1b	.329
Ward,	2b	.267	Stengel,	cf	.368
Scott,	ss	.269	Snyder,	c	.279
Shawkey,	p	.323	Barnes,	p	.258
Average		.304	Average		.312

The Giants started in the first as though they were out to quickly "put the game on ice." After Groh and Frisch had singled "Irish" Meusel gripping his wagon tongue slammed one of Shawkey's offerings into deep left for a homer, chasing Groh and Frisch over the plate ahead of him.

The Yanks' first run also came in their half of the first. Dugan singled, went to second on Bancroft's high throw and scored on Pipp's hit.

Ward counted No. 2 for the Yanks when he lofted the ball over the left field fence in the fourth, with nobody on. The score was tied up in the eighth when the only Babe doubled and reached third on the next play, scoring on Bob Meusel's double.

Play by Play

First Inning.

For the Giants. Bancroft up. Ball one, foul, strike one. Bancroft out fly to outfield. Groh, strike two. Singles to centre. Frisch up. Foul, strike. Singles to left field. Groh stops at second base. E. Meusel up, foul strike one, strike two—a foul, ball one. **Knocks a homer into the left field bleacher, scoring Groh and Frisch.** Young at bat. Ball one, two, strike one, strike two swung. Flies to Witt. Kelly fouls to Schang. Three runrs, three hits, no errors. Shawkey wild as a deer. Meusel's homer was a waist high drive.

For the Yankees. Witt up. Ball one, strike one, ball, foul strike two Beat out a bunt down the third base line. Umpire Hildebrand called it a foul and made Witt go back. Ball two, Out Groh to Kelly. Dugan at bat, foul strike one, ball one, ball two, singles—safe on Bancroft's wild throw. Here comes Ruth. Dugan went to second when the overthrow ball rolled to the stand. Ruth grounds to Kelly, advancing Dugan to third. Pipp up. Ball one. **Dugan scored when Pipp knocked one in right field for a single.** R. Meusel at bat. Ball one, ball two, strike one called, strike two called. Flied to Young. One run, one hit, one error. Barnes didn't look any too good. Using a fast ball with a slow curve. Bancroft's error was on an easy chance.

Second Inning.

For the Giants. Stengel at bat Ball one, ball two, strike one called, foul strike two. Beats out a hit to Scott. Snyder up. Ball one. Singles over first. Stengel stops at second. Cunningham running for Stengel. J. Barnes up. Ball one, ball two, foul strike one, strike two, foul ball, hits into a double play, Scott to Ward to Pipp, Cunningham going to third. Bancroft up. Strike one swung, foul strike two, ball one, flied to Ruth. No runs, two hits, no errors. The Yank infield got Shawkey out of a very bad hole. Shawkey continues serving them in the heart of the plate and the Giants were all swinging hard.

For the Yankees. Cunningham now playing center field for the Giants. Schang out, Frisch to Kelly. Ward out, Groh to Kelly. Scott up, ball one, ball two, strike one called, ball three, **strike two,** foul, out, Frisch to Kelly. No runs, no hits, no errors Frisch dived headlong and grabbed a hot liner. He rose and made a quick throw for the out. The crowd gave the first ovation of the day. A really sensational play.

Third Inning.

For the Giants. Groh up. Two strikes called, ball one, two, foul again, he walks. Frisch up. Ball one, flied to Ruth. E. Meusel, who packs homers, at bat. Strike one called, foul strike two, ball one, flied to Ruth. Groh holds first. Young up Ball one, ball two, foul strike one foul strike two, ball three, he walks too. Kelly up, foul strike one, strike two swung, ball one, Kelly fans. No runs, no hits and no errors. Shawkey still having trouble. He was wild and got in the hole against nearly every batter. He used his slow curve to fan Kelly.

For the Yankees. Shawkey up. Ball one, strike one called, strike two swung, ball two, ball three, foul, again, and again, once more, out Groh to Kelly. Witt, ball one, strike one called, one more, ball two, fouled out to Groh. Dugan up. Ball one again, doubled over third base. Here comes Ruth. Good time for a homer. Ball one, one more, strike one called. Oh, why delay the agony, ball three—handed safe passage to first by Barnes. Pipp up and out, Barnes to Kelly. No runs, one hit and no errors. Barnes was going along lovely but seemed to lose control on Ruth. He tried to get the swat king on slow curves but could not find the plate.

Fourth Inning.

For the Giants. Cunningham. Two balls, strike one called, foul strike two. Fanned swinging hard. Snyder up. Strike one called, fouled to Dugan. J. Barnes at bat. Strike one called, another same, ball one, he fanned too. No runs, no hits and no errors. Shawkey was more steady.

For the Yankees. Meusel at bat, foul strike one, strike two called, fouls to Snyder. Schang up, ball one, strike one called, ball two, strike two called, foul ball, fans. **Ward up,** ball one, **hits a homer over the left field fence.** Scott at bat, strike one swung, ball one, flies to Frisch. One run, one hit and no errors. Frisch ran far into centre to catch the drive, fell, rolled over, but held the ball.

Fifth Inning.

For the Giants. Bancroft up. Ball one, strike one, ball two, ditto, flied to Pipp. Groh at bat. Strike one, called, Groh out Scott to Pipp. Frisch up. Beat out a bunt on the first ball. Meusel up. Ball one, foul strike one ball two, strike two swung. Frisch stole second on a short passed ball. Ball three. Frisch stole third on another wild throw. Meusel out, Scott to Pipp. No runs, one hit and no errors. Shawkey was very wild pitching to Meusel. Sent two into the dirt, allowing Frisch to steal.

For the Yankees. Shawkey at bat Strike one called, flies to Cunningham. Witt up, ball one, out Barnes to Kelly. Dugan up. Ball one, strike one called, foul strike two, ball two, foul, ball three, singles to left field. Ruth up, ball one, ball two, strike one called, come on Babe, foul strike two, foul, out Frisch to Kelly. No runs, one hit, no errors. Barnes was mixing a slow and a fast ball on Ruth. He sent a hot grounder to Frisch who made a fast play for the out. Barnes still a bit wild.

Sixth Inning.

For the Giants. Young up, ball one, ball two, beats out a high hit to Scott. Kelly up. Strike one called, ball one, forces Young at second, Shawkey to Ward. Cunningham at bat. Ball one, foul strike one, ball two, flies to Ruth. Snyder up. Flied to Ruth. No runs, no hits and no errors. Shawkey became more steady in this inning and had the Giants chopping at his slow curve.

For the Yankees. Pipp gets three balls, then a foul strike, strike two called, fouls to Snyder. R. Meusel up Ball one, ball two, foul strike one ball three—he walks. Schang up Out Frisch to Kelly. Ward at bat R. Meusel goes to second. Ball one and two on Ward, strike one called ball three, strike two swung, he fans No runs, no hits and no errors Barnes again became wild and had difficulty in finding the plate for Meusel and Ward. Hildebrand called a bad strike on Ward and had the Yanks trying to get at him.

Seventh Inning.

For the Giants, Barnes up. Strike one called, out Ward to Pipp. Bancroft up, ball one, ball two, grounded to Pipp. Groh up, ball one, flies to Ward. No runs, no hits, no errors Shawkey spent most of the inning "beefing" against Hildebrand's decisions. He was making good use of his curve.

For the Yankees. Scott ground to Kelly on first ball. Shawkey up. Ball one, strike one called, strike two swung, he fans Witt up. Ball one foul strike one, foul tipped, out on strikes. No runs, no hits, no errors Barnes got going fine and had the Yanks breaking their bats swinging at soft curves.

The total now is, Giants, three runs, seven hits, one error. Yanks two runs, four hits, no errors.

Eighth Inning.

For the Giants Frisch at bat. Ball one, strike one, foul strike two, two fouls, ball two, foul, flied out to Dugan. Meusel up. Fouled out to Pipp. Young up. Ball one, ball two, strike one called, strike two swung, foul, flies to Meusel. No runs, no hits, no errors. Shawkey continues to squawk at Hildebrand on his decisions. He retired the side on the easiest of chances.

For the Yankees. Dugan up. Strike one, called, out Barnes to Kelly. Ruth up with a strike swung, doubled up against the left field wall. Pipp up Ball one, flies to Cunningham. Ruth goes to third after the catch. Meusel at bat, foul strike one, one more like it, foul, Ruth made attempt to steal home on the delivery but Meusel fouled and robbed him of a score ball one, ball two, Meusel doubles to left centre, scoring Ruth. Schang at bat. The score is now tie—three to three. Schang grounded to Kelly. One run, two hits, no errors.

Ninth Inning.

For the Giants. Kelly up, strike one called, ball one, ball two, strike two swung, popped to Dugan. Cunningham at bat. Smith batting for Cunningham singles over first base. It was ruled a foul ball by Umpire McCormick and Smith was called back. Foul, strike one, ball one strike two called, foul, he strikes out Snyder up, strike one called, ball one, out Ward to Pipp. No runs, no hits, no errors.

For the Yankees. King now playing center field in place of Cunningham. Ward up, ball one, ball two strike one called, strike two called. Ball three. M'gosh do something! He did—he struck out. Scott has strike called, singles to center field Shawkey up. Strike one swung, bunted and forced Scott at second base Barnes to Bancroft. Witt up. Strike one called, ball one, singles to left field. Shawkey stopping at second base. Meusel up. Ball one, ball two, foul strike one, strike two swung, struck out. Dugan struck out. No runs.

Tenth Inning.

For the Giants. Barnes up. Strike one called, out Shawkey to Pipp. Bancroft now batting. Ball one, foul strike one, strike two called, singles to left center. Groh up. Bancroft out, trying to stretch his hit to a double. Groh now batting, strike one called, another, foul, out Ward to Pipp. No runs, one hit, no errors.

For the Yankees. Ruth fouled out to Snyder. Pipp, ball one, tabbed out on base line by Kelly. Meusel up. Fouled out to Snyder. No runs, no hits, no errors.

Game called on account of darkness.

RED CROSS PUTS UP $9,739,872

Year's Budget Stresses Relief and Services at Home and Overseas.

MILLIONS FOR VETERAN AID

Over $3,000,000 Allotted to the Disabled—Foreign Work Lessens.

Washington.—Expenditures totaling $9,739,872.47 for carrying through its program of services and relief during the fiscal year in the United States and overseas are authorized in the budget of the American Red Cross, effective July 1, 1922. This total is $2,735,975 less than the expenditures for the last fiscal year, when disbursements reached $12,475,847.69, it is announced at National Headquarters in a statement emphasizing the necessity of continued support of the organization by enrollment during the annual Roll Call, November 11-November 30 inclusive. This total for the budget is exclusive of the large financial operations of the 3,300 active Red Cross Chapters, which, it is estimated, will more than double the total.

War Veterans Have First Call

First call on Red Cross funds is for the disabled ex-service men, of whom 27,487 were receiving treatment from the Government on June 1 last. This work for veterans and their families in a wide variety of service that the Government is not authorized to render and for which it has neither funds nor facilities has the call on $3,030,692.90 during the current year, or about $366,000 more than was expended last year for soldier service. Adding the funds disbursed in this humanitarian work of physical reconstitution following the World War by the Chapters throughout the country will approximate a total for the current year approaching $10,000,000. This work, in the opinion of the Surgeon General's office, will not reach its peak before 1926.

Through its Chapters the American Red Cross is equipped to find the individual ex-service man, help him in his problems and difficulties, provide immediately for his necessities, and open the way for him to the Government compensation and aid to which he is entitled. The extension of this work to the families of such men proves to them that the Red Cross has lost none of its sympathy nor will to service manifested in wartime. Similarly the service goes out to the men still in the Army and Navy, 11,087 of whom were under treatment in Government hospitals on June 1, 1922.

Greater Domestic Program

This year—after five years of constructive effort during the war and after the armistice—brings with it a greater responsibility for domestic service to the American Red Cross. The budget for foreign operations, however, totals $3,404,000, but of this amount $1,834,000 is for medical relief and hospital supplies for Russia, which is a part of the gift made by the American Red Cross in 1921 to the Russian famine relief work of the American Relief Administration program. The child health service in Europe continues, moreover, and $654,000 is appropriated for this work undertaken in 1920. Other items in the stringently diminished foreign program include $200,000 to support the League of Red Cross Societies, $22,000 for nurses' training schools instituted by the Red Cross abroad, and $000,000 for liquidation of the general Red Cross foreign relief program.

Prepared for Emergencies

For disaster relief the Red Cross has set aside $750,000, and for emergencies in Chapter work $500,000 to be available for domestic, insular and foreign demands. This is more than $395,000 above last year's expenditures. For service and assistance to the 3,300 Chapters and their branches $1,293,000 is provided by the National organization.

Other budget items of importance in the domestic program include $200,000 for assistance to other organizations and education institutions for training Red Cross nurses and workers; $190,000 for Roll Call assistance furnished to Chapters; $1[illegible] for unforeseen contingencies.

Of the total budget less than $500,000 is allotted for management in the National organization. No cash estimate, of course, is possible to weigh the value of the service by volunteers in the Chapters.

THE RED CROSS SUPPLEMENTS GOVERNMENT SERVICE BY MEETING THE PARTICULAR NEEDS OF THE INDIVIDUAL EX-SERVICE MAN. THIS WORK CANNOT GO ON UNLESS YOU SUPPORT IT WITH YOUR MEMBERSHIP DOLLAR PAY UP TODAY

ODDS AND ENDS AND THINGS

By J. D. C.

Yesterday "The Colyum" carried a story concerning the operations of the income tax law in America, and showed the amounts the fortunate possessors of both large and small incomes were required to pay over to their government. For the purpose of comparison, read what the average Briton is compelled to give up to his government:

British citizens are just undergoing their annual torture—that of the income tax officials.

Compared with it the Star Chamber and the Spanish inquisition were institutions of mercy. They merely tortured physically. The British income tax leaves the citizens practically without a cent and entirely without self respect.

For the average person in Britain the income tax is five shillings to the pound—25 per cent of income. For the wealthy, when combined with what is known as "supertax," it may amount to as much as 80 per cent of income.

To begin with the average common or garden taxpayer has to fill in forms relating to his income. In their statistical details they would puzzle any well-informed accountant.

With these he does his best. And then the person known as the "income tax surveyor" begins to dispute.

He begins by assuming that the innocent taxpayers is attempting to defraud the Treasury. He demands more and further information and threatens the direct penalties of the law.

The taxpayer makes further returns, but meets with the same fate. He is told that his return is incorrect but that the income Tax Commissioners have assessed him at a certain figure. That figure is usually just three times the amount of the citizen's return.

And the powers of these income tax people are entirely arbitrary, if the amount they demand is not paid to the minute they can do practically what they please. If they wish they can just descend on the taxpayer's home—without notice—and seize and sell all his furniture without more to do.

Process of this kind is beloved of income tax officials. Extreme action of this sort brings them official commendation and increase in salary. For every extra percentage they extort from the taxpayers they receive kudos in kind.

By royal edict King Alphonso of Spain has forbidden all persons coming in contact with him to eat garlic, says the Matin, which comments:

"Veritably the King is at his wit's end to invent methods of oppression. If it is necessary, as a protest against another of these acts of royal tyranny, hundreds of garlic eaters will rally to the cause of democracy."

The king must have attended an occasional movie show in Clearfield.

* * * *

School children deposited $5,500,000 during the last school year in their banking systems, according to the Savings Bank Division of the American Bankers' Association. This is an increase of 40 per cent. over the preceding year and of 100 per cent. over the year 1919-1920.

The association's tabulation gives the full record of 394 systems, which indicates an increase of over 100 per cent. in the number of operating systems over the previous year. There has been a constant increase in the number of pupils participating in the savings systems, as follows:

1919-1920	462,651
1920-1921	802,906
1921-1922	1,271,020

* * * *

The new York World in a feature story is authority for the following statement:

America has "invested" the colossal sum of $960,000,000 since the war in German paper money now almost worthless. America paid 10 cents, 5 cents, 1 cent a mark. America bought 80,000,000,000 paper marks at an average of 1 1-5 cents a mark, $12 a thousand. Today paper marks sell below 70 cents a thousand. America has left what may be worth $56,000,000. Not more.

The victims in America of this stupendous folly, the most gigantic financial delusion in history, have lost $904,000,000. About one-third of the loss is represented by stocks and bonds bought in Germany with marks. The buyers have given to Germany more than twice as much gold as Germany has paid in gold in war reparation payments to date, $365,637,000.

America has paid to Germany a sum equal to one-third the total of the American Civil War debt $2,845,907,626, Aug. 1, 1865. America, victor over Germany, has paid her as much as Germany in victory, collected from defeated France as indemnity after the Franco-Prussian War of 1871—$968,000,000.

The story of this frenzied American buying of the German paper mark never has been told. Only fragmentary, disconnected reports have appeared from time to time. The World presents the first complete report with an analysis founded on official statistics of Berlin and records in America. They have been checked by canvass of the big cities of the United States and the scrutiny of eminent, thoroughly experienced banking and foreign exchange specialists.

The World's estimates are based on Berlin official statistics of Sept. 2, 1922, and latest records of German marks distributors in this country.

All the German paper marks in the world are worth today, at the current price, 70 cents a thousand, about $175,000,000 in American money, less than one-fifth of the vast sum America paid or one-third of them.

Why Suffer From Bronchial Asthma?

Simple Home Treatment Makes Breathing Easy

Just because you start the day tired, listless, worn-out from loss of rest and the difficult breathing of miserable Asthma—do not think you have to stay this way long.

Be strong and well, breathe clearly and easily again by using this simple treatment known as Oxidaze, the prescription of a Worcester, Mass., physician.

For any form of Asthma where the bronchial tubes are irritated, the breathing short and difficult, its healing, relieving action is really wonderful. Sufferers who can't breathe at night and who gasp for a good, clear breath will appreciate the relief and comfort Oxidaze gives.

Oxidaze is a tablet made from essential oils which, when the patient dissolves in the mouth, almost immediately soothes the irritation, clears out the choked up air passages and enables the sufferer to breathe easily and get a real comfortable night's sleep.

It is sold by Bloom's Drug store and all leading druggists who agree to refund the full purchase price of the first package to any sufferer who does not obtain satisfactory relief. Asthmatic sufferers should give Oxidaze a trial. It is harmless and inexpensive.

Ohio Battleground

Contined from Page One

of prohibition laws in Ohio entirely up to federal authorities.

Wets will fight vigorously to win a decisive victory at the polls to show that the people are tired of existing condition.s Drys, on the other hand, plan to bend every effort to prove prohibition still is the will of a majority.

Degenerating.

In the dream of Nebuchadnezzar it was only the feet that were part of iron and part of clay; but many of us now are getting so cruel in our avarice that it seems as if, in us, the very heart of us were part of iron and part of clay.—John Ruskin.

FOUR WAYS YOU SAVE BY WASHING OUR WAY

Women who keep an accurate account of what it costs to wash at home, and what it costs to wash in this more modern way of ours, say this is what it saves:

Clothes

We conserve the life of clothes because we wash them without rubbing, in the purest of white soap and rainsoft water.

Time

A day and a half a week—fifteen minutes, your washing is done, and you have an entire day to yourself.

Energy

And because you are spared the hard work of washing, you save in energy and health—no tired arms and aching back after washday is over.

Money

Taking into consideration wages, meals, carfare, soap and supplies, this way of washing is really more economical from the staindpoint of money also.

Try this method next washday. You'll find it much more satisfactory all around. Phone and we'll have a representative call.

It is no derogation of the merits and ability of any other ber to say that Associate Justice George Sutherland, er Senator from Utah, brings to the United States Supreme t bench every quality requisite to the discharge of the liarly exacting and delicate duties of the post. If during extraordinarily brilliant career as lawyer and legislator Sutherland never consciously prepared for the seat which ook on the reconvening of the Supreme Court, it is never- ess true that his practice and mental bent have been of racter to make him conspicuously desirable in the place. was a particularly happy choice by the president and one will give increasing satisfaction to the country as Justice erland gets settled to his new work, bringing to bear on constitutional issues submitted to the court a comprehen- of the fundamental law equaled by few and surpassed one of his contemporaries.

As lawyer, as Senator and as author George Sutherland onstrated his familiarity with the constitution and the sions respecting it in such degree that he was recognized n authority on it. The American Bar Association paid te to his talents and learning by electing him president hat organization, a post which none but the most eminent mbers can hope to rise to. In late years he has given special y to the application of constitutional principles to foreign irs. Thus he comes to the Supreme Court at a time when wledge along these lines will be especially useful. He be one of the most conscientious and capable judges who e ascended the bench in a long time.

When Charles Dickens first visited America in 1842 one he things he most desired to see was the Shaker community New Lebanon in Eastern New York. It was then at the ht of its material prosperity, but the novelist was re- ed by the gloom of its doctrines and he also clearly per- ed the economic fallacy which was destined to bring about downfall. It was not the only but the best known society those who believed that all property should be held in mon. Many other colonies were formed in imitation of parent organization and now comes word that one of them, t at South Union, Kentucky, is to wind up its affairs. Its perty will be at auction and, disregarding the original nciple, those members who wish may take their share and wherever they will. Those who desire to continue in the aker faith will probably return to the parent community in w York.

America has witnessed many experiments in communism. seem to have had more of those communities than any ntry in modern times, but it is well to remember that com- nism itself is most ancient and was a condition of primitive n. As the world progressed it discarded the communist a. As men accumulated property they asserted their rights ownership. The opportunity to own property became a erful incentive to endeavor and thus man recorded new ievements that made life more comfortable and pleasant all. The greatest experiment in communism, that of the ssian bolsheviki, has proved a disastrous failure. After only ew months its directors found it necessary to modify their iginal plans.

There are intelligent persons who still hold that in a per- ctly ordered world the communistic scheme would be feas- le. But this is a practical and not an ideal world, and except its earliest times, communism has not "worked." It has en tried and found wanting.

From childhood one is told "there is nothing new under e sun." In a large measure he is told the truth, but not the ole truth, for the old is frequently dressed up in new form as to appear to all intents and purposes really something w. Just now the financial crooks have dressed up an old aud so that it looks like a new speculative opportunity.

The wireless telegraph and telephone are in their infancy. e radiophone is in its experimental stage. Every day some- dy makes a new discovery which is heralded as bringing or the other to perfection. Immediately the invention is pitalized and stock is sold to the gullible public. One sale ceeded the other in rapidity that is amazing, for each new vention is so great an improvement over anything that has ceded it that the new stock needs no argument. It's the d mining scheme and oil fleece in a wireless form, that's all.

So many millions of dollars have been invested in inven- ons that have lived but a day or a week or so that magazines voted to wireless subjects have begun sounding a warning. ho way is there prospect of immense fortunes, for the crooks ho get the money spend very little if any of it on the devel- pment of the mechanisms they herald.

HE OLD HOME TOWN By Stanley.

THE HOME RADIO

How to Make and Use It By A. HYATT VERRILL

Copyright by Harper & Brothers

XXI. TRANSMISSION OR SENDING

I have already described the differences between interrupted waves and continuous waves and how the human voice, or other sounds, if transmitted by the ordinary interrupted waves of wireless telegraph sender, would be broken up and unintelligible. I have also explained how continuous waves are capable of carrying such sounds without breaking them up; but while songs or voices, music, etc., cannot be properly transmitted over an interrupted wave yet code signals or alternate dots and dashes may be transmitted over continuous waves by means of instruments which break or interrupt such waves so that a radiophone may be used to send both telegraphic and telephonic messages and a radio telephone receiver will receive both.

The principal item and most essential part of the sending or transmitting apparatus, known as the radiophone, is the device by which the continuous waves are produced. The instrument which was first devised for this purpose was an ordinary arc-light, but this has now given place to a device known as a vacuum-tube oscillator which is similar to an ordinary incandescent light with specially prepared filament and other devices. The operation of the arc-light was as follows: If a condenser and inductance coil are shunted across the current to such a light, the current is lessened as the condenser is charged and the potential difference across the arc increased. This still further charges the condenser which discharges through the coil and again becomes charged in the reverse direction, the whole operation being repeated over and over again with extreme rapidity—as many as one million discharges a second being usual. Diagrammatically this arrangement is shown in Fig. 56. In which A represents the aerial, B the ground C the coil, D the telephone receiver, E the condenser, F the light, G the dynamo or other source of electricity. The vacuum-tube on the other hand, acts in a very different manner. When this is charged with electricity the filament discharges an increased number of electrons upon a plate with incalculable rapidity Fig 57, and this, by means of various appliances, produces the oscillating currents of extremely high frequency, or continuous waves. Unlike the arc light however, the vacuum tube is employed in receiving the incoming waves varying the current through the filament and so altering the flow of electrons, thus transforming the vacuum-tube from an oscillator to a detector.

It must not be supposed, however, that an oscillator, a condenser, a coil and an aerial and ground are all that are necessary in order to send wireless telephone messages. In addition there are numerous appliances for tuning or adjusting wave lengths, modulating, amplifying and other purposes and in a large station these are very complicated and powerful. For example, the Westinghouse station at Newark uses five 250 watt tubes—two being used as oscillators and three as modulators—and which work in conjunction with two fifty watt speech amplifiers. The current used in lighting is ten volt A. C. with five amperes of radiation. For sending the sounds, microphones are used and to maintain an even cool temperature on the tubes a rotary fan is employed. In this station the coil or inductance is a flat or pancake helix wound with half-inch copper ribbon while a special motor generator furnishes a 2,000 volt current for the plate. The aerial is of the multiple-tuned type of six 150-foot wires at a height of 210 feet above the ground with a counterpoise of twelve wires on thirty foot spreaders twenty feet above the roof and below the aerial. As a lead-in, a ten wire cage on loops two inches in diameter is used.

This, however, is one of the largest and most powerful stations in the world and for amateurs nothing so complete, so large or so powerful is ever required. For ordinary purposes, a very small sending set is all that is necessary and even for the smallest a license is required, for while there is no objection to any one operating a receiving set and listening-in to anything that is in the air, a multitude of signals and sounds being sent is a great nuisance and interferes with every legitimate sending station by confusing the sounds and creating interferences. In fact, the greatest trouble in receiving is interference and it is far more difficult to tune out the weak waves from nearby amateur sending instruments than to tune to the desired signals from the large stations.

Also, it is far more difficult to construct and set up a transmitting set than a receiving set and hence I advise all amateurs to leave the sending alone, or else make no attempt to install or use a transmitting set until thoroughly familiar with the subject and no longer an amateur. But as my book on wireless telephony would be considered complete without a description and instructions as to setting up sending sets, a few simple directions and figures are given.

Women Dishonest

Continued from Page One

ession is stated by a local attorney who has been asked for advice by many persons:

"The per capita tax is levied under the act of 1922 and applies to all the taxable citizens of 21 years of age residing in the city. The school district can not collect occupation tax, as the per capita tax takes the place of the occupation assessment.

"Under the 19th amendment every woman 21 years of age, has become a tax payer and is subject to the same taxation as a man. It is true that you can not imprison a woman for taxes the same as a man, as the act of 1834 exempts women, imbeciles and infants from imprisonment for taxes, but notwithstanding this fact, taxes are collectible from woman the same as from a man and if a woman has any property, either real or personal, the school district can collect this tax the same as from the man.

"It is as much a debt as a grocery bill or a millinery's bill, and what the woman does not pay, her husband will have to help make up, for the reason that it takes a certain amount of money to run the schools, and if it is not paid in per capita tax, it must be collected by raising the millage."

It is believed that many women who have become delinquents in the matter of paying their school per capita assessment, will step up to the collector's office and pay that tax the same as her husband, when she knows the true legal side of the situation.

STATE FIREMEN ASSOCIATION OFFICERS ELECTED

Harrisburg, Oct. 5.—Jos Morris, of Reading, was elected president of the Pennsylvania State Firemen's Association at today's session of the 43rd annual state convention of the organization. Morris defeated Earl Koch, also of Reading, his only opponent, by nearly 1,000 votes, and the election was made unanimous.

Other officers elected were: Vice president, Jacob Weaver, York; Charles Hoover, Bellwood; George Zimmer, Williamsport; Frank Lastermah, Pittsburg; treasurer, Charles Clark, Wayne.

The election concluded the bulk of the business of the convention which will meet next year in Reading.

BEZDEK MAKES SHAKE-UP IN PENN STATE LINEUP

State College, Pa., Oct. 5.—Far from satisfied with the showing made by the varsity to date, Coach Hugo Bezdek went after the Penn State gridders yesterday and gave his line-up a big shake-up. Gregory was given a chance at quarterback in place of Karstetter and he did well. Simmons, a newcomer, replaced Carson at right halfback and looked good, while McCoy, who has been substituting for Hufford at right end, was shunted to the second team in favor of Artell. Dick Schuster, at left tackle, also came under the axe his place being taken by Johnson and then by Flock. Whether or not these changes are to be permanent Bezdek alone can tell.

TOO MUCH MEAT HURTS KIDNEYS

Take a glass of Salts to Flush Kidneys if bladder bothers you.

Eating too much meat may produce kidney trouble in some form or other, says a well-known authority, because the uric acid excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twings, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so that it no longer irritates, thus often ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia water drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders.

The state of being able to see in the dark is known as hemeralopia, or day blindness. A person who suffers from this may be known as hemeralopic.

DON'T WANT TO BE ANNEXED

Messrs Fred Eplett, Rebecca A. Myers, Ira D. Smyers, Wm. Spangle, James Conley and B. R. Wagner, property owners at Blain City and Rosebud precincts of Beccaria township, want to remain "Country Jakes," if you please, and cannot bear the thoughts of becoming citified and therefore have filed in Prothonotary Ralston's office notice of appeal from the Ordinance annexing their property to Coalport borough.

The borough Council of Coalport recently at the request of interested property holders were asked to take into their limits a scope of territory in Beccaria township immediately adjacent to the borough line. But the Clearfield county Courts will be asked to prevent "Greater Coalport" from becoming a reality.

When England Had No Dukes.

The duke of Norfolk was brought to the block in 1572, and in him perished the last surviving English duke. For more than half a century England had to do its best—defeat the Spanish armada, conquer Ireland, circumnavigate the globe, lay the foundations of empire, produce the literature of the Elizabethan age—without any ducal assistance.—From Pollard's "History of England."

FORMER RESIDENT DIES SUDDENLY

Lawrence Dale, a former resident of Clearfield, who conducted a gun and automobile repair shop at East Sroudsburg, Pa., for several years past, died suddenly at an early hour this morning. The deceased, who came to Clearfield from Grampian in 1887 to learn the gunsmith trade with the late J. E. Harder, was about 55 years of age. He is survived by his widow, who was Miss ——Gulich before her marriage.

Not Hard to Determine.

There are usually two viewpoints of value of work—that of the worker and that of the employer. The one may overestimate as much as the other underestimates. Approximate value may lie between them, and is easily determined when the laborer is worthy of his hire.—Grit.

TWO PHILADELPHIA FIREMEN KILLED IN MIDNIGHT BLAZE

Philadelphia, Pa Oct 5—Two [firemen] were killed and many more were [seriously] injured in a fire at a manufacturing plant and warehouse at the corner of Bodine and North Seventh streets last night about midnight The fire spread rapidly and three alarms were turned in within an hour A slight explosion broke the windows in the front of the building and scattered fragments of glass among the firemen, injuring several Shortly afterwards the chief was advised that the upper floors of the building were loaded with heavy machinery He immediately ordered the firemen out of the building but before four of them could escape the building collapsed and two were killed

FALL FASHIONS

SHOPMEN GO OVER DAUGHERTY'S HEAD TO GET A DECISION

Chicago, Ill, Oct 5—Railroad shopmen went over the head of Attorney General Daugherty today and asked the Federal court to review the Daugherty injunction proceedings. Don Richberg, attorney for the shopmen, read the appeal. He stated that under the law of 1903 the Attorney General could inform the judge that the matter was of immediate and general public interest and under this plea an immediate hearing could be held. The shopmen want an early disposition of the case.

WHEN YOU READ ARE YOUR ARMS LONG ENOUGH?

You've often seen folks trying to read and they hold the reading matter at arm's length and wonder why they do not get the enjoyment out of reading that they think they should. It's their eyes that are to blame and proper glasses would eliminate the trouble.

I'm fitting that kind.

MT. CARMELITES MUST BE PERFECT ON ELECTION DAY

Mt. Carmel, Pa., Oct. 5. (U. P.)—Old-time election days here are gone forever.

Years ago the polls were in the siderooms of saloons, the places were blue with cigar smoke. Cuspidors were on each side of the election board tables, a pile of salted pretzels was on hand.

The prohibition law took away the liquor at the polls and many changes were made.

New election officers here will not be permitted to smoke or chew tobacco on election day at the polls.

Many women will vote this year and it is the object of the anti-tobacco rule to keep the polling places clean for the ladies.

COAL FACT FINDING BODY TO BE NAMED TOMORROW

Washington, D. C., Oct. 5.—It was announced today at the White House that President Harding will name the coal fact finding body under the Borah act tomorrow. The act provided for the miners to name three, the operators three and the President one. The President was not bound however to accept the men nominated. So far as is known neither operators or miners have made any recommendations.

Good News For You!
Come and see the Electric Home Shallow Well or Spring Pumping Outfit **in action** at the HEATING & PLUMBING Co's Show Rooms, Curwensville, Pa.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Relatives were notified at an early hour Tuesday morning that Mrs. S. C. Watts had passed away. For several months she had been ill at the home of her sister, Mrs. E. A. Null, at Juniata, Pa. She met with an accident while on a visit, resulting in a dislocated hip, from which she never recovered sufficiently to return to her home. She gradually grew worse as the weeks rolled away, and at last other complications from an old trouble setting in proved too severe for her frail vitality, and on Sunday it was noticed that the end was near. She became unconscious on Monday and lingered until the call came of 'well done thou good and faithful servant come to thy reward."

Salome Kittelberger-Watts was the eldest daughter of George and Louise Kittelberger, and was born in Curwensville in June 24, 1863, hence was in her 60th year at the time of her demise. She received her education in the town's public schools and was a bright and industrious pupil, generally leading her classmates in all studies. She was converted to the Christian faith early in her girlhood and from that time until a few months before her death was a constant worker in the church and Sabbath school. She was of a quiet but sociable disposition and in the years that she lived here made many warm friends who greatly admired her religious zeal. We have not words at our command with which to express the sorrow felt in this community at her untimely end, but all rejoice in the assurance that great will be her reward by the Master for her untiring service and work in His vineyard while here below.

On October 4th, 1911, she was united in marriage to Samuel C. Watts of Ferguson township, and their union was one of congeniality and unalloyed happiness, during all their years. No children were born to this union, and they lived for one another.

She is survived by her husband, two brothers and three sisters, to wit: Harry J. and George F. Kittelberger; Mrs. E. A. Null, of Juniata, Pa.; Mrs. W. K. Wrigley and Mrs. S. L. Dougherty, both of Curwensville. Funeral services were held in the Methodist Episcopal church Thursday afternoon at 1:30 o'clock. The services were in charge of her pastor Rev. John C. Collins, assisted by other ministers. Interment of the body was made in the Watts cemetery near Lumber City.

To recite a few words of eulogy from her pastor: "Mrs. Watts made a profession of religion at an early age and united with the Methodist church. From her girlhood days she has been actively engaged in church work, being for years one of the most prominent and successful workers in the Sunday school, the Epworth league, the Woman's Foreign Missionary Society, the Ladies' Aid and for years a leading spirit in the music of the church. One of the chief contributions that she made to religion and the community was her work as teacher of a large organized ladies' Bible class, numbering over one hundred. At the time of her death she was corresponding secretary of the County Sunday School Association, of which organization her husband was president. Her life in all its varied activities and interests was characterized by devotion and loyalty to the cause to which she became allied or to the duty or responsibilty she assumed. It might be said that the advancement of the kingdom of God was her chief work through all the years, from childhood until her tasks on earth were all finished. In her death religion has lost a noble example, the church a faithful member and the community a character of the highest moral value."

Harry Lucas has notified his patrons that after Friday he will take his milk wagon off the route. He will still continue the milk trade at his restaurant and store on South Thompson street.

Dr. J. C. Collins goes to Sandy Ridge on Thursday evening and will deliver his interesting lecture, "Smiles" in Rev. McCurdy's church. This lecture is well worth the small price of admission that will be asked.

Lawrence Voulpe, a brick yard employe, had the misfortune to injure the third finger on his left hand Wednesday, morning, which necessitated the attention of a physician.

Citizens, do not forget that tonight the ladies' auxiliary of American Legion are having a show at the Strand theatre. The pictures are good and all who attend will be satisfied with the entertainment.

The report of the first game of the world's series did not create very much enthusiasm in this place yesterday. We are all Yanks up here and our sympathies lie in that direction.

Lovers of the football game, do not forget that the High School squad goes to Indiana on Saturday. Do not hesitate a minute to proclaim on the hou etops that our boys will come home with honors. Even Williamsport regarded it a great honor to be able to defeat our lads from the mountains. That shows the kind of stuff the High School team is made of. Some one is liable to win the game by score, but everyone who plays the game has the same chance of winning honors. You want to keep your weather eye open for the result of the game Saturday.

Mr. and Mrs. Vincent Kester, residents of New Jersey, spent Tuesday in the home of Mr. and Mrs. F. F. Tate, on George street.

Mrs. James Dale of Clearfield was a guest of Mr. and Mrs. Joseph L. Dale at their George street home on Tuesday.

Mr. and Mrs. Charles Heller, of Lancaster, Pa., visited at the home of F. F. Tate this week. Mrs. Heller is a cousin of Mrs. Tate.

The Curwensville Teachers' Association will hold its first regular meeting next Monday evening in the Patton building at 7:45 o'clock. The regular hour for this meeting is at four o'clock in the afternoon, but at the parent-teachers' meeting last Monday evening the teachers association was asked to hold its first meeting in the evening. The entire public and everybody interested in school problems are invited to this meeting. It is the desire of the Parent Teachers Association to complete its organization after the above meeting. At the meeting Monday night it developed that there was some doubt as to who was invited to the Parent Teachers Meeting. Let it be thoroly understood that this meeting is for all parents and teachers in Curwensville, or connected with Curwensville. In fact the invitation is not limited to Curwensville, but any one who has enough interest to come will be made welcome. So, now, parents and teachers, come out Monday night and help this splendid organization to re-organize and get to work.

The enrollment in the eighth grade has increased to seventy pupils. Prof. Norris is now trying to find a way to lessen this number. It can only come about in one of two ways, viz:—To jam the lower grades and take a room there, or find a room on the outside of the school buildings. If any one knows of a room that can be had he will do the schools a favor by notifying the president of the school board, Dr. H. O. King, or Mr. Norris.

The lrst literary meeting last Friday night was well attended and the program rendered did great credit to the high school. It was unique, orderly, well presented, and showed marked ability on the part of the performers. There was not a hitch in the entire program. Surely such meetings as this one will do much for the high school students. Mr. Norris feels that mental gymnastics are just as important, if not more so, than physical gymnastics. The two societies plan to continue these meetings monthly during the year. Last year the high school did not hold a public function during the year without there being none, and sometimes three other social activities going on in the town at the same time. This year the high school activities were published in the papers to prevent this, but, as some one remarked, "It is starting just as it continued last year." "Our Schools" very respectfully asks that if the public do not wish to patronize their public activities that no counter activity be staged against them. Everybody knows that it is not intended that way, but when it continues through nine public activities in succession it becomes discouraging, and it is only right that attention should be called to this double staging. The schools deserve our support, so do other activities, but too much on the same night lessens the attendance and patronage everywhere.

A public school teacher was asked after he had been in a deer camp last December, if he got what he went after. His reply was, "I certainly did and got it a-plenty." The next question, "What did you get?" Answer, "Good, vigorous exercise." "Why," said he, "I can now do in one day what it took me three days to do before going hunting." This school teacher did not kill any game. We believe this colluoy is applicable to our football boys. They got what they went after, "Good vigorous exercise a-plenty." They did not bring the winning tally home along. They left it at Williamspotr where it belongs. Williasport had to use 23 men against our boys. That fact tells its own story. They had a much larger reserve to draw from and it made it mighty hard for our boys to have to play against so many fresh men. This factor had much to do with Williamsport's winning the game. The victory to our boys was greater than many games they have won in the scoring. They played a big high school and came off with honor. Even Williamsport is loud in its praise of our team. Curwensville High School had added another STAR to its athletic glory. Boys, we congratulate you most heartily.

Last week Dr. H. O. King, president of the School Board, asked that some pupil give him four good reasons for providing more rooms for the school children. About twenty reasons are handed in. The following five reasons are selected from the number:

1. An average of over 50 pupils per room.
2. The eighth grade has 70 pupils in one room.
3. The air cannot be kept fit to breathe in some of the rooms.
4. Many children have to sit on chairs with no desk to write on, and some have to sit on the front seat with no desk to write on.
5. Teacher and children become dull, and often sick, and have to go out for fresh air.

NOTICE

The Ladies' Aid of the M. E. church will hold a food sale in Jimmie's Sweet Shop Saturday afternoon, Oct. 7th. 10|5-2t-ch

EVERY GIFT THAT YOU BUY HERE IS A GIFT THAT LASTS

When you buy some little gift for her you know that you are buying a gift that will last. That's been true of the things we have sold from the very opening of our shop.

There is such a wide variety of things for you here that it will be more or less of a difficulty to select the one you want, but you'll be mighty hard to please if you don't find just what you are looking for.

Drop in before you make that purchase and see if what you want is not awaiting you here.

W. W. O'Brien

AILING WOMEN OF MIDDLE AGE

Mrs. Linton Tells How Helpful Lydia E. Pinkham's Vegetable Compound is at This Period

Denver Colorado.—"I have taken Lydia E. Pinkham's Vegetable Compound for seven years and I cannot tell you the good it has done me. It is good for young and old and I always keep a bottle of it in the house, for I am at that time of life when it calls for Lydia E. Pinkham's help. My husband saw your ad. in the papers and said 'You have taken everything you can think of, now I want you to take Lydia E. Pinkham's Vegetable Compound!' So I let him get it, and I soon felt better and he told me 'I want you to take about six bottles.' So I did and I keep house and do all my own work and work out by the day and feel fine now. I tell every one about the Vegetable Compound, for so many of my friends thought I would not get well."—Mrs. R. J. LINTON, 1850 West 33d Avenue, Denver, Colorado.

After reading letters like the above, and we are constantly publishing them, why should any woman hesitate to take Lydia E. Pinkham's Vegetable Compound if she is in need of help? It brings relief where other medicines fail.

FOOTBALL TOGGERY

It's here boys and here in plenty. The crisp football days have brought out the teams in various sections of the city and the High School team is working out every night for the opener next Saturday.

If the teams playing 'round the city knew that everything that you'll need is right here for you and ready to be used, you'd be right in and make the necessary purchase for the proper protection of your body when you play.

Come in and see what you want—we have it.

TOWN PESTS

That-Kid-Next-Door doesn't Really look like This; he just Acts like it. What he Doesn't Do Isn't Worth Thinking of, and what he Does Do Sometimes makes him an Awful Pest. A Kid like this must have Inspired that Famous Saying, "Boys should be Buried between the Ages of Four and Fourteen!"

BUSINESS MEN OF

Continued from Page One

St. Mary's Chamber of Commerce, as Secretary. It was decided to elect an Executive Committee of seven members from each county at the meeting for permanent organization to be held at St. Mary's on Wednesday, October 11th, and in order that the right men should be chosen from each county, a county chairman was named with power to choose the other six before next week's meeting These chairmen are: For Clearfield county, A. E. Leitzinger; Elk county, J. E. Jackson, of St. Mary's; Cameron county, Hon. D. J. Goodnough, of Emporium.

The proposed route would make the distance between Clearfield to Buffalo 180 miles. It would cut in half the distance betweenClearfield and St Mary's and Clearfield and Ridgway. Over the proposed northern central route the distance from Clearfield to either of these Elk county towns is but 87 miles while by the present traveled route via DuBois it is just twice that distance.

The matter of restoring the route to the Sproul plan or system will be presented to the coming session of the Legislature and a legislative Commimttee was named to draft the necessary legislation. This committee is composed of the following well known Clearfield attorneys: Hon. Allison O. Smith, A. H. Woodward and John C. Arnold.

Those from Clearfield present at the meeting were: Hon. A. O. Smith, A. E. Leitzinger, William Leitzinger, A. H. Woodward, Charles T. Kurtz, Dr. J. Paul Frantz, H. C. McCloud, John C. Arnold, John F. Leitzinger, A. L. Kline, J. L. McGinnis, M. F. Bratton, L. C. Norris.

Has Big Butter Industry.

The city of Cork, Ireland, is one of the greatest butter centers in the world. It is estimated that one year's export of butter amounts to 750,000 tons.

Lines to Be Remembered.

Guard well your spare moments. They are like uncut diamonds. Discard them and their value will never be known; improve them and they will become the brightest gems in a useful life.—Anonymous.

JEFFERSON COUNTY OFFICIALS GREAT HELP TO MR. DAVIS

Philadelphia, Pa., Oct. 4.—Judge Corbett and District Attorney Morris of Jefferson county are public officials worth while. They stand for law enforcement and the support of the constitution. So far at the present term of their court the grand jury has returned thirty-four indictments in thiryt-one liquor cases. Of these defendants one ran away, one was found not guilty but required to pay the costs, thirty were either convicted by the jurors or entered pleas of guilty and fined from $100 to $2500 each, totaling $11,450, thus enriching that county to that extent. In addition to the fines and costs eighteen of the defendants were also given prison sentences ranging from one montn in the county jail to two years in the penitentary. State Director Davis was much pleased upon the receipt of this report and says sixty-seven such counties would make every good citizen proud of Pennsylvania.

32 CALIBRE BULLET FLATTENED AGAINST HEAD LIKE QUARTER

Pittsburg, Pa., Oct. 5. (U. P.)—Speaking of hard substances, it is generally admitted that Albert's head takes all honors.

In criminal court Albert Taylor, a negro of Fair Oaks, testified in a felonious assault and battery trial, exhibited a 32 calibre lead bullet, flattened to the shape of a quarter. He said the slug was removed from beneath his scalp, after he had been shot in the head in a melee near his home last May.

George Jackson, a negro of Greensburg, who was alleged to have fired the shot, was found guilty of assault and battery and sentenced to serve 60 days in the workhouse, after being in jail 85 days awaiting his trial.

He'll Be King

Probably this baby doesn't know he'll be a king some day. He's the Prince Michael, son of the crown prince and princess of Rumania.

A close shave! MENTHOLATUM comforts and heals.

NEW COMMANDER OF LEGION ANNOUNCES POLICIES OF TERM

Wilkes-Barre, Pa., Oct. 5. (U. P.)—The first step of the new officers of the Pennsylvania Department of the American Legion will be to aid needy veterans to secure speedy adjustment of compensation claims, according to W. B. Healey, newly elected State commander.

After the care of disabled men, boosting of the Legion's membership in the State will be the principal concern of the officers. There are now 867 Legion posts in the State with a total membership of 57,000.

But He Finally Weakened.

"What's become of Rantington Roarthe eminent tragedian?" "He's going small parts in the movies," "I used to say he'd starve before he'd prostitute his talents on the screen," "Maybe he did. He was considerably underweight when he signed up."—Birmingham Age-Herald.

City on Twenty-six Islands.

Ghent, Belgium, stands on 26 islands, which are connected with each other by 80 bridges. The city is noted as the birthplace of Charles V and John of Gaunt. It is associated with American history by being the scene of the treaty of December 24, 1814 which terminated the second war between the United States and England.

And It Always Has Been.

"Talk will be cheap," remarked the man on the car, "just as long as the supply is greater than the demand."—Newark Star Eagle.

Exploited by the Camera.

Some of the satellites of Jupiter were discovered photographically, and have never been seen except on photographic plates.

Not Always Helpful.

Many a worm has turned, only to get itself trapped on the other side.

USE SULPHUR TO HEAL YOUR SKIN

Broken Out Skin and Itching Eczema Helped Over Night

For unsightly skin eruption, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even fiery, itching eczema is dried right up.

Get a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

Small Matter, Anyway.

Our neighbor's wife bought some household labor-saving article from a slick-tongued salesman the other day. When her husband came home she told him about it. "What is this device for?" he asked. "Gracious," replied the wife, "the agent talked so fast I forgot to ask him."—Chicago Daily News.

Chinese Use of Ginseng.

The little yellow root of the ginseng plant is used by the Chinese as food and medicine. Specimens resembling the human body often command their weight in gold because of supposed occult virtues. Neither species of ginseng, however, is considered by the occidental physicians to have any pronounced medicinal qualities.

Road Twenty Centuries Old.

England's oldest road, which must have been made at least 2,000 years ago, runs between Winchester and Canterbury.

Gossip For Tonight's Tea Table

Mrs. C. R. Raup and daughter Catharine of Jersey Shore are visiting friends in Clearfield.

Mrs. S. L. Warner was called to her old home in Ohio today because of the serious illness of her mother.

Mrs. George W. Glenn of Ashtabula, Ohio, is visiting at the home of her sister, Mrs. C. Thornton Hile.

Born, to Mr. and Mrs. A. C. Edwards at their home on Reed street at 5 o'clock yesterday afternoon, a son.

Harry Gulich left at 1:15 for East Stroudsburg, Pa., where he was called by the death of his brother-in-law Lawrence Dale.

GIRL SCOUT NEWS

The new High School troop will have their first meeting at the home of Mrs. Clifford Shaw, St. Charles Apartments, Third street, on Saturday afternoon at 2:30. Members of that troop are as follows: Ruth Parker, Lola McLaughlin, Miriam Turner, Eva Williams, Edna Mohney, Edith Mohney, Isabel Conklin, Clara Thomas Julia Brantner, Agnes Peterson, Evelyn Peterson, Imilda Milligan, Miriam Shively, Laura Rupert.

Scouts will be glad to hear that manuals will be on sale at Kurtz's as soon as they can be ordered. Troops will be given their numbers before next meeting.

"FARMER" WILL THOMPSON ALSO

Harry Kennedy started something when he brot that peck of pears to The Progress office. Harry is not the only farmemr on West Side with friends in this office because our old friend "Farmer" or Undertaker Will Thompson placed the editorial force under lasting obligtions this afternoon when he presented us with a bag o as fine pears as we ave sunk our false teeth into this season.Thanks Bill, many thanks.

A CLEAR COMPLEXION
Ruddy Cheeks—Sparkling Eyes —Most Women Can Have
Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c

WONER SATISFIED THAT HIS DRY LAW IS NOT EFFECTIVE

Sharon, Pa., Oct. 5.—Representative George E. Woner, author of the famous Woner bill, designed to enforce prohibition in Pennsylvania, is ready to aid Pinchot in bringing about repeal of that bill and the Brooks High License Act. He so informed the nominee yesterday wher Pinchot and his fellow candidates spoke at Butler, Mr. Woner's home town.

Woner Drafting Substitute Bill.

Mr. Woner not only is willing to work for the repeal of the bill which bears his name, but is engaged in drafting substitute legislation for the liquor measures now on the books. He is in full accord with Pinchot's ideas respecting the liquor traffic and says he will be one of the new Governor's most earnest supporters during the legislative session.

Mr. Pinchot was cognizant of Mr. Woner's ideas respecting repeal of the Woner act, for they discussed the matter as long ago as June last, when Mr. Woner spent some time at the Pinchot home at Milford.

Much interest attached to what Mr. Woner might say. In his address he did not specifically mention the act which bears his name; neither did he directly discuss Pinchot's "Dry planks," but he said he indorsed the program as a whole and the nominee as a "man who would blaze the way to better public service, who would upbuild the Government, straighten out crooked things in State affairs and insist upon rigorous enforcement of the law."

"Mr. Pinchot," he said, "has stood firm against the most powerful pressure. He has stood firm when many a strong man would have quailed. He will do at Harrisburg exactly what he says he will do."

Crippled State Team Prepares To Battle With Gettysburg Men

State College, Pa., Oct., 5.—Battered and sore from the hard game with William and Mary College last Saturday, the Penn State gridders now face another stiff early season encounter with Gettysburg this week. The battlefield boys held Lehigh to a no-score tie game last week and they are requected to test Bezdek's crippled team to the limit.

All McCoy, former yearling end, was at Hufford's place in the varsity line-up and the youngster will probably fill the hole at right end in good shape His experience counts against him, but the coaches are giving him plenty of attention and he is steadily improving. The hole at quarter back is still a big one, pending word from a Pittsburgh specialist as to the condition of Mike Palm's broken ankle. The coaches are clinging to the hope that Mike wil lnot be out for more than a couple of weeks, in which case he could get back into the lineup for the big game with Syracuse in New York City the last of this month.

One bit of encouragement this week has been the improved playing of the line. The powerful Nittany forwards played great defensive football in the game last Saturday, stopping the southern attack on every occasion. They were not so good on the offensive, however, and the coaches have been working them extra hard this week to develop speed. With Hufford gone from right end, on extra burden has been placed on the shoulders of Tiny McMahon, giant right tackle, to bolster up that end of the line, and the coaches believe that the big fellow will rise to the emergency and play the best football of his career.

"All is Vanity."

The vanity of human life is like a river, constantly passing away and yet constantly coming on.—Pope.

This, the biggest bass horn in the world, has just been made in New York. It's nine feet high and the bell's four feet in diameter. It could be heard one-half mile—if anyone had lung power enough to blow it.

REV. ARMSTRONG TO SPEAK

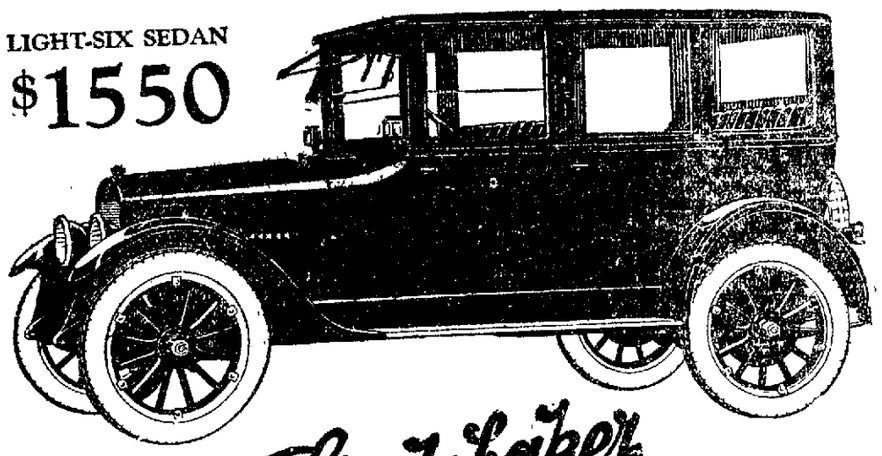
HEAL SKIN DISEASES
Apply Zemo, Clean, Penetrating, Antiseptic Liquid

It is unnecessary for you to suffer with Eczema, Blotches, Ringworm, Rashes and similar skin troubles. Zemo obtained at any drug store for 35c, or $1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. Get it today and save all further distress.

LIGHT-SIX SEDAN
$1550



Studebaker

Let Us Show You the Difference!

Vibration is destructive. It shortens the life of a car. It takes the pleasure out of riding because it causes rattles, squeaks and other irritating noises.

Vibration is particularly annoying in closed cars.

There is no perceptible period of vibration in the Studebaker Light-Six at any speed. This is due in part to Studebaker's method of machining the crankshaft and connecting rods on all surfaces. No other car, at anywhere near the price, follows this practice.

Lack of vibration and the quiet, smooth-running motor find quick approval from everyone who rides in the Light-Six Sedan.

And every driver is similarly enthusiastic over the way it throttles down to a walking gait in high gear—and the quick response that follows the touch of the accelerator.

Aside from its mechanical excellence, the Light-Six Sedan is notable for its sterling coach work. The substantial body, like the chassis, is built complete in Studebaker plants. Materials and workmanship are of highest grade.

Long, semi-elliptic springs and deep, restful, nine-inch cushions afford genuine comfort. Upholstery is of a rich, mohair velvet plush—good looking and durable.

Today's price is the lowest at which the Light-Six Sedan has ever been sold.

The name Studebaker on your car is the best protection you can have!

Exhaust heater. Eight-day clock. Thief-proof transmission lock. Cowl ventilator. Side coach lamps. Rain visor and windshield cleaner. Inside locks on three doors and outside lock on right-hand front door. Silk roller-curtains. Four doors that swing wide open. Dome light. Mohair velvet plush upholstery.

PLEASE BE PATIENT IF YOUR MILK IS LATE

The drouth is affecting our milk deliveries in this way. The farmers in many of the sections are hard put for water and in many cases do not have water to cool their milk at home and have to wait until it reaches our plant.

Our trucks are making the usual rounds of the farms but, owing to the conditions, our reserve stock of milk in the cooler is so low that the drivers have to make the second and third trip to the depot for a fresh stock for your table.

We would rather do this and have your milk a trifle late than run the chance of having some indifferent quality delivered to you.

SECOND GAME 3-3 IN TENTH

BUSINESS MEN OF THREE COUNTIES TO ASK FOR OLD ROAD

Clearfield-Elk-Cameron People Want Original Route Restored to Road System And Built.

IMPORTANT LINK

The Second meeting of a number of the leading citizens of Clearfield, Elk and Cameron counties interested in an improved road across the northern central part of the State, was held at St. Mary's Pa., yesterday and was attended by twenty-seven persons. The movement which was originated by the Chamber of Commerce of St. Mary's was brought to the attention of Clearfield people about two weeks ago when representatives of St. Mary's and Emporium came here to attempt to interest the Clearfield County Good Roads Association and Clearfield people generally in their proposition to have restored the original Sproul route across the county seats of Clearfield, Elk and Cameron counties, and incidentally link up northern and central Pennsylvania by means of the Lakes to the Sea Highway and incidentally up through New York State to Buffalo.

This proppsed road is a direct route or outlet both north and south for Elk and Cameron counties and the people of that section are very anxious to have this road restored to the primary routes through the State as it was originaly intended when the plan was first presented to the State Legislature by Governor—then Senator—William C. Sproul. Through the shortsightedness of the legislators in the counties vitally interested this important route was allowed to be stricken from the plan.

Yesterday's' meeting at St. Mary's resulted in the formation of a temporary organization styled "The Clearfield, Elk and Cameron Improved Road Association" with B. C. Mulhearn, o St. Mary's as Chairman and William E. Matthews, Secretry of

(Continued on Page Seven)

WILL YOU HELP TO SAVE THE FISH IF A WAY IS FOUND?

The unprecedented drouth with its consequent drying up of the mountain streams will almost depopulate the trout streams hereabouts as the extreme scarcity of water makes it possible for all the natural enemies of the trout to prey upon them at will and persons who have been along the streams say the coons have regular paths along the banks of every stream where at low they are nightly pursuing the trout to their death, while watersnakes and fish hawks of every description are despoiling the streams of their hard-pressed finny inhabitants daily.

Fishermen and conservationists generally should take advantage now of the present serious situation to guard against such destructiveness as is pictured here, in the future, by organizing and going out upon the different streams and building small dams every couple of hundred yards for the purpose of providing deeper water rendezvous for the trout when the next drouth and low water comes.

These dams could easily be fashioned out of rocks and brush and need not be very artistically or expensively constructed but would do a world of good. One day's work by twenty-five men on Trout Run, Lick and Stone Runs, Cold Stream, Moose Creek, Montgomery, Stony and Little Anderson would accomplish wonders for the future.

Now is the time to act boys; let's get busy. Who'll go along? Telephone your name in or come to The Progress office right away quick and let us organize for the work.

State Sunday School Association To Meet At Lancaster Oct. 11

Lancaster, Pa., Oct 5. (U P)—The annual convention of the Pennsylvania Sunday School Association will be open here October 11 and continue three days.

Hundreds of delegates from every section of the State are expected to attend the State convention.

The awarding of service medals to every individual who can show a record of having served for 50 years as an official in a Sunday school will be the novel feature of the session.

OHIO BATTLEGROUND OF WETS AND DRYS; ELECTION NOV. 7TH

Ohioans Will Vote On Beer and Light Wine Amendment After Big Fight In The Courts.

RESULT IS IN DOUBT

By E. J. JOHNSON
(United Press Staff Correspondent)

Columbus, O., Oct. 5.—Ohio this fall becomes the battleground of prohibition.

The first real test of popular sentiment towards the Volstead act will be made at the polls November 7

The proposed "beer and light wine" amendment to the State constitution, following a long fight against its submission to the voters, has finally been ordered on the November ballot by the Ohio supreme court.

The Anti-Saloon League of America, however, intends to appeal the case to the federal court.

The proposal's submission to the people will result in the fiercest wet and dry battle since the eighteenth amendment became effective.

Controversies between wets and drys in Ohio began several months ago when the Association against the prohibition amendment secured 240,000 signatures to a petition calling upon Secretary of State Smith to submit an amendment to the State constitution to the people legalizing the manufacture and sale of beer and light wine. Smith immediately rejected the proposed amendment on the grounds that it would be unconstitutional if adopted.

Mandamus proceedings brought against the Secretary of State by proponents of the amendment resulted in the supreme court's order that the proposal be placed on the ballot.

Adoption of the amendment will not mean Ohio will have beer and wine in contravention of [illegible] would, however, invalidate existing State laws which are in conflict with its provisions and put enforcement

FULL REPORT OF GAME ON PAGE TWO

GOOD SHIP "CLEARFIELD" LAUNCHED AT NEWPORT, WASHINGTON, SEPTEMBER 27th

An event of considerable interest to Clearfielders is found in a clipping from the Spokane Daily Press of Spokane, Washington. It will be a matter of pride that a real sporty-looking launch of hefty dimensions was launched at Newport, Washington, last Friday and that a Clearfielder out that way saw to it that she was christened with good old Susquehanna aqua and given the glorious name of "Clearfield." Long may she float! Following is what the Spokane paper says.

Newport, Wash., Sept. 27.—Nellie Weaver, youngest daughter of W. B. Weaver, superintendent of the big Ione Panhandle Lumber Company mill, tomorrow afternoon here will christen the new Panhandle Lumber Company's tug Clearfield with a bottle of water from the Susquehanna river, as it slips down the ways into the Pend Oreille river. The boat was given the name of Clearfield after Clearfield, Pa., the old home of John Dimeling of the Panhandle company, now located at Spirit Lake, Idaho.

The craft, 65 feet over all, with a beam of 17 feet and a 6-foot depth of hold, was constructed specially for shallow river work by Phil Mitchell of the Mitchell Boat Works, Coeur d'Alene, Idaho. It is equipped with twin 55 horsepower Atlas Imperial Deisel engines, towing engine, geared anchor winches, electric lights, and is of the tunnel stern design, each propeller turning in a tunnel above the keel. The maximum draft is three feet.

Captain James Stewart and Captain Flanders, both old-time river skippers here, aided in the construction. The Clearfield will handle logs, booms, poles and barges between here and Ione.

LATEST DISPATCHES FROM WAR ZONE IN THE NEAR EAST

Constantinople, Oct. 6.—The Turks are moving into Kandra, adjacent to the Ismud neutral zone, and their move is looked upon with alarm as it is a strategic position It is looked upon as a move to intimidate the Allied forces The Mudania peace conference is credited with being highly successful in accomplishing the aims set out to accomplish. The protocol provides for the Turks return to Eastern Thrace and the evacuation of the Straits by the British.

Greeks Oppose.

Athens, Greece, Oct. 5.—The curse of war hung over Greece today with the rallying to the colors of practically all military classes. The populace is stirred to indignation by reports that the Turk is to return to Europe and that a portion of Thrace is to be given to the Turks. Fanatical speakers are going about the city urging war. Premier Venizelos is said to have counseled the cabinet to oppose the terms, especially the evacuation of Thrace.

Great Demand For Home Brew Containers Keeps Pop Makers On Lookout

Mt. Carmel, Pa., Oct. (U. P.)—Guarding containers is more of a problem to home brewers here than the gathering of grapes, other fruit or malt and hops.

Bottlers are having difficulty in getting returns on their containers. One soft drink bottler has lost two and a half car loads of bottles in a year.

One resident was making wine and set out a keg in the sun to dry before filling it with the "sparkling fluid." When he went out after the keg it had disappeared.

THEATRE SEASON OPENS AT DRIGGS NEXT WEDNESDAY

Abounding with birsk and snappy tunes, sufficiently funny to give an audience its money's worth of laughter, "Shuffle Along" comes to the Driggs Wednesday night, October 11. No musical comedy that has come to New York, has created such a stir, set all the city talking and so thoroughly aroused the theatrical appetite as "Shuffle Along," the first colored cyclonic musical comedy to reach Broadway since the days of Williams and Walker over ten years ago. For two years "Shuffle Along" played to capacity business at the Sixty-third street Music Hall. The best of talent of the colored profession has been secured, including a special orchestra and a "bronze beauty" chorus.

WEATHER DOPESTERS PROMISE NOTHING FOR NEXT 48 HOURS

Washington, D. C., Oct. 5.—Official weather forecasters of the United States Government today said that for the next forty-eight hours, which is as far ahead as they will predict, there is no relief in sight from the twenty-five-day dry spell which is working havoc in the eastern part of the nation, particularly Pennsylvania. Bureau statistical experts say, however, that contrary to general opinion, the present situation is not unusual.

"THIS LADY HAD NINE CALLERS ONE EVENING

Did you ever try a Progress Classified ad? If you didn't why don't you? That is if you have anything you want to sell, or anything you want to acquaint the people of this community with.

We had a patron of the classified column come into The Progress office this morning and tell us of her experience. She inserted a classified ad. on Saturday. The paper was on the street that afternoon at 4 o'clock. During Saturday evening there were nine calls in answer to the four line ad. and up to last night the total responses numbered thirty-nine, and she demanded the ad taken out to save her peace of mind and give her time to attend to something else.

If you doubt this story try the Classified ad column for yourself. Then you'll find out for yourself. We guarantee results.

WOMEN GETTING ALL SET TO FINISH THE JOB THEY STARTED

Anybody who thinks that the women of this city are not interested in politics has not made a very thoro examination of political conditions. In the first place it was the women's vote very largely that made Gifford Pinchot the Republican nominee for governor, and if we know anything about boxing, with that blow they made the enemy groggy and on November 7th, they are going to deliver the knockout punch and send all of Gifford's political enemies through the ropes and land Mr. Pinchot and those he has endorsed as in harmony with his plans in the State capitol and State Senate and legislature.

Indicating the interest of the women of this city are the plans of several women from all sections of the city and from all walks of life to hold a political meeting for the women at the Arbitration Room of the Court House on Friday evening at eight o'clock. It is anticipated that a large crowd of women voters, and many who have not yet voted, but are considering it in order to obtain redress for taxation inequalities and other injustices, will be in attendance. There will be some good speakers present and a pleasant evening is anticipated by all. Don't forget the date and time—Friday of this week at eight o'clock.

FIREMEN PARADERS AT HARRISBURG CALLED TO DUTY

Harrisburg, Pa., Oct. 5.—A two-alarm fire which destroyed two frame garages broke out here just before thousands of firemen swung in to line for the big parade being held at the Forty-third Annual State Firemen's Convention. Thousands of the red-shirted firemen answered the fire call and quickly demonstrated just what could be done to an impudent an insolent blaze that would rear its head at such a moment.

HOOVER ILL AT NEW YORK

New York City, Oct. 5.—Herbert Hoover is quite ill at the Hotel where he is staying here. He had intended to address the Banker's convention here today but was too ill to attend.

'WOMEN DISHONEST' SAYS NEWSPAPER OF NON-TAXPAYERS

Given Legal Opinion Of Their Status; Attorney Does Some Peculiar and Faulty Reasoning.

IS A BAD MUDDLE

The DuBois Express, a Democratic organ of the city of DuBois, and one of the only two papers in Central Pennsylvania we know of that is knocking the Prohibition Amendment in favor of wines and beer, and anything else that can be slipped over the bar when a dry officer isn't looking, went to the trouble to get a DuBois attorney to give an opinion on the matter of taxation for women, and on the basis of that opinion on and on the basis of that opinion call the women who refuse to pay the full amount of taxes "dishonest."

The Progress does not question the legal opinion so eagerly sought. We do, however, question the good judgment of the reporter who hurls a charge of dishonesty because of a righteous protest over a gross inequality recently inflicted on our system of taxation which was indeed bad enough before occupation taxes were heaped on the housewife, to add to the burden of the average family. The Progress urges the payment by women, of the county tax so that they can participate in future elections and help get this thing straightened out.

The brilliant lawyer says: "What the woman does not pay, her husband will have to help make up, or the reason that it takes a certain amount of money for purposes of government, and if it is not paid in per capita tax, it must be paid by raising the millage.' He might have added this:

The increased cost of government is being paid by the assessing of women, and in effect is equal to an increase in the assessment of her husband's occupation and with the result that his per capita tax is doubled. Unmarried men, large holders of real estate for speculation purposes, and other taxables escape altogether. The poor devil who is married and raising a family is making up the deficiency.

That is the truth of the matter.

Here is the Wail of The Express

Obviously because of an erroneous belief caused by the circulation of groundless rumors more than half of the women tax payers are placing themselves in the same category as one who refuses to pay an honest debt, by their refusal to pay school taxes.

The word has gone out, and has been widely circulated, that the school tax cannot be collected, and while this is true in some respects, the fact remains that the tax is an honest debt just the same as the city tax and the county tax, which the women are paying. Furthermore, it can be collected in many instances, and many of the women of the city who have refused to pay the $5 assessment are going to be surprised when legal steps are taken to collect the tax.

At the office of City Treasurer O S. Sutter today, it is learned that for some reason or other, more than fifty per cent of the women paying their taxes, have refused to pay the per capita tax for school purposes.

Legal enlightment on the question is forthcoming in the following dis-

(Continued on Page 4).

Throngs Wait Outside World Series Gates

Waiting hundreds spent the night before the first world series game in line outside the gates at New York. The most popular form of kill time was discussing anent the merits of the two teams Each new edition of the papers was eagerly bought as it was published and read by the flickering light of candles.

Hornet Nest Gift To Dear Teacher Almost Broke Up This School

Pittsburg, Pa., Oct. 5. (U. P.)—Two boys on their way to school noticed a perfectly-formed hornet's nest They cut it down and gave it to the teacher, Miss Alvina Pratt, who placed it in view of the class and said it was an example of patience and hornet workmanship.

The day grew warm and the supposedly empty nest thawed out and in a short time the room was filled with hornets. Miss Pratt and a dozen or more pupils were stung. Class was dismissed for the day.

REV. HAD PLANNED TRIP TO FAR JAPAN; HAD $40,000 CASH

New Brunswick, N J., Oct. 5.—Rev Edw W. Hall, slain pastor, whose body was found with that of the wife of the church sexton, on Sept 16th, had $40,000 in negotiable securities ready to be converted into cash preparatory to a trip to Japan, the authorities announced here today.

The Giants started in the first as though they were out to quickly "put the game on ice." After Groh and Frisch had singled "Irish" Meusel gripping his wagon tongue slammed one of Shawkey's offerings into deep left for a homer, chasing Groh and Frisch over the plate ahead of him.

The Yanks' first run also came in their half of the first. Dugan singled, went to second on Bancroft's high throw and scored on Pipp's hit.

Ward counted No. 2 for the Yanks when he lofted the ball over the left field fence in the fourth, with nobody on. The score was tied up in the eighth when the only Babe doubled and reached third on the next play, scoring on Bob Meusel's double.

Play by Play

First Inning.

For the Giants. Bancroft up. Ball one, foul, strike one. Bancroft out fly to outfield. Groh, strike two. Singles to centre. Frisch up. Foul, strike. Singles to left field. Groh stops at second base. E. Meusel up, foul strike one, strike two—a foul, ball one. **Knocks a homer into the left field bleacher, scoring Groh and Frisch.** Young at bat. Ball one, two, strike one, strike two swung. Flies to Witt. Kelly fouls to Schang. Three runrs, three hits, no errors. Shawkey wild as a deer. Meusel's homer was a waist high drive.

For the Yankees. Witt up. Ball one, strike one, ball, foul strike two Beat out a bunt down the third base line. Umpire Hildebrand called it a foul and made Witt go back. Ball two, Out Groh to Kelly. Dugan at bat, foul strike one, ball one, ball two, singles—safe on Bancroft's wild throw. Here comes Ruth. Dugan went to second when the overthrow ball rolled to the stand. Ruth grounds to Kelly, advancing Dugan to third. Pipp up. Ball one. **Dugan scored when Pipp knocked one in right field for a single.** R. Meusel at bat. Ball one, ball two, strike one called, strike two called. Flied to Young. One run, one hit, one error. Barnes didn't look any too good. Using a fast ball with a slow curve. Bancroft's error was on an easy chance.

Second Inning.

For the Giants. Stengel at bat Ball one, ball two, strike one called, foul strike two. Beats out a hit to Scott. Snyder up. Ball one. Singles over first. Stengel stops at second. Cunningham running for Stengel. J. Barnes up. Ball one, ball two, foul strike one, strike two, foul ball, hits into a double play, Scott to Ward to Pipp, Cunningham going to third. Bancroft up. Strike one swung, foul strike two, ball one, flied to Ruth. No runs, two hits, no errors. The Yank infield got Shawkey out of a very bad hole. Shawkey continues serving them in the heart of the plate and the Giants were all swinging hard.

For the Yankees. Cunningham now playing center field for the Giants. Schang out, Frisch to Kelly. Ward out, Groh to Kelly. Scott up, ball one, ball two, strike one called, ball three, **strike two,** foul, out, Frisch to Kelly. No runs, no hits, no errors Frisch dived headlong and grabbed a hot liner. He rose and made a quick throw for the out. The crowd gave the first ovation of the day. A really sensational play.

Third Inning.

For the Giants. Groh up. Two strikes called, ball one, two, foul again, he walks. Frisch up. Ball one, flied to Ruth. E. Meusel, who packs homers, at bat. Strike one called, foul strike two, ball one, flied to Ruth. Groh holds first. Young up Ball one, ball two, foul strike one foul strike two, ball three, he walks too. Kelly up, foul strike one, strike two swung, ball one, Kelly fans. No runs, no hits and no errors. Shawkey still having trouble. He was wild and got in the hole against nearly every batter. He used his slow curve to fan Kelly.

For the Yankees. Shawkey up. Ball one, strike one called, strike two swung, ball two, ball three, foul, again, and again, once more, out Groh to Kelly. Witt, ball one, strike one called, one more, ball two, fouled out to Groh. Dugan up. Ball one again, doubled over third base. Here comes Ruth. Good time for a homer. Ball one, one more, strike one called. Oh, why delay the agony, ball three—handed safe passage to first by Barnes. Pipp up and out, Barnes to Kelly. No runs, one hit and no errors. Barnes was going along lovely but seemed to lose control on Ruth. He tried to get the swat king on slow curves but could not find the plate.

Fourth Inning.

For the Giants. Cunningham. Two balls, strike one called, foul strike two. Fanned swinging hard. Snyder up. Strike one called, fouled to Dugan. J. Barnes at bat. Strike one called, another same, ball one, he fanned too. No runs, no hits and no errors. Shawkey was more steady.

For the Yankees. Meusel at bat, foul strike one, strike two called, fouls to Snyder. Schang up, ball one, strike one called, ball two, strike two called, foul ball, fans. **Ward up,** ball one, **hits a homer over the left field fence.** Scott at bat, strike one swung, ball one, flies to Frisch. One run, one hit and no errors. Frisch ran far into centre to catch the drive, fell, rolled over, but held the ball.

Fifth Inning.

For the Giants. Bancroft up. Ball one, strike one, ball two, ditto, flied to Pipp. Groh at bat. Strike one, called, Groh out Scott to Pipp. Frisch up. Beat out a bunt on the first ball. Meusel up. Ball one, foul strike one ball two, strike two swung. Frisch stole second on a short passed ball. Ball three. Frisch stole third on another wild throw. Meusel out, Scott to Pipp. No runs, one hit and no errors. Shawkey was very wild pitching to Meusel. Sent two into the dirt, allowing Frisch to steal.

For the Yankees. Shawkey at bat Strike one called, flies to Cunningham. Witt up, ball one, out Barnes to Kelly. Dugan up. Ball one, strike one called, foul strike two, ball two, foul, ball three, singles to left field. Ruth up, ball one, ball two, strike one called, come on Babe, foul strike two, foul, out Frisch to Kelly. No runs, one hit, no errors. Barnes was mixing a slow and a fast ball on Ruth. He sent a hot grounder to Frisch who made a fast play for the out. Barnes still a bit wild.

Sixth Inning.

For the Giants. Young up, ball one, ball two, beats out a high hit to Scott. Kelly up. Strike one called, ball one, forces Young at second, Shawkey to Ward. Cunningham at bat. Ball one, foul strike one, ball two, flies to Ruth. Snyder up. Flied to Ruth. No runs, no hits and no errors. Shawkey became more steady in this inning and had the Giants chopping at his slow curve.

For the Yankees. Pipp gets three balls, then a foul strike, strike two called, fouls to Snyder. R. Meusel up Ball one, ball two, foul strike one ball three—he walks. Schang up Out Frisch to Kelly. Ward at bat R. Meusel goes to second. Ball one and two on Ward, strike one called ball three, strike two swung, he fans No runs, no hits and no errors Barnes again became wild and had difficulty in finding the plate for Meusel and Ward. Hildebrand called a bad strike on Ward and had the Yanks trying to get at him.

Seventh Inning.

For the Giants, Barnes up. Strike one called, out Ward to Pipp. Bancroft up, ball one, ball two, grounded to Pipp. Groh up, ball one, flies to Ward. No runs, no hits, no errors Shawkey spent most of the inning "beefing" against Hildebrand's decisions. He was making good use of his curve.

For the Yankees. Scott ground to Kelly on first ball. Shawkey up. Ball one, strike one called, strike two swung, he fans Witt up. Ball one foul strike one, foul tipped, out on strikes. No runs, no hits, no errors Barnes got going fine and had the Yanks breaking their bats swinging at soft curves.

The total now is, Giants, three runs, seven hits, one error. Yanks two runs, four hits, no errors.

Eighth Inning.

For the Giants Frisch at bat. Ball one, strike one, foul strike two, two fouls, ball two, foul, flied out to Dugan. Meusel up. Fouled out to Pipp. Young up. Ball one, ball two, strike one called, strike two swung, foul, flies to Meusel. No runs, no hits, no errors. Shawkey continues to squawk at Hildebrand on his decisions. He retired the side on the easiest of chances.

For the Yankees. Dugan up. Strike one, called, out Barnes to Kelly. Ruth up with a strike swung, doubled up against the left field wall. Pipp up Ball one, flies to Cunningham. Ruth goes to third after the catch. Meusel at bat, foul strike one, one more like it, foul, Ruth made attempt to steal home on the delivery but Meusel fouled and robbed him of a score ball one, ball two, Meusel doubles to left centre, scoring Ruth. Schang at bat. The score is now tie—three to three. Schang grounded to Kelly. One run, two hits, no errors.

Ninth Inning.

For the Giants. Kelly up, strike one called, ball one, ball two, strike two swung, popped to Dugan. Cunningham at bat. Smith batting for Cunningham singles over first base. It was ruled a foul ball by Umpire McCormick and Smith was called back. Foul, strike one, ball one strike two called, foul, he strikes out Snyder up, strike one called, ball one, out Ward to Pipp. No runs, no hits, no errors.

For the Yankees. King now playing center field in place of Cunningham. Ward up, ball one, ball two strike one called, strike two called. Ball three. M'gosh do something! He did—he struck out. Scott has strike called, singles to center field Shawkey up. Strike one swung, bunted and forced Scott at second base Barnes to Bancroft. Witt up. Strike one called, ball one, singles to left field. Shawkey stopping at second base. Meusel up. Ball one, ball two, foul strike one, strike two swung, struck out. Dugan struck out. No runs.

Tenth Inning.

For the Giants. Barnes up. Strike one called, out Shawkey to Pipp. Bancroft now batting. Ball one, foul strike one, strike two called, singles to left center. Groh up. Bancroft out, trying to stretch his hit to a double. Groh now batting, strike one called, another, foul, out Ward to Pipp. No runs, one hit, no errors.

For the Yankees. Ruth fouled out to Snyder. Pipp, ball one, tabbed out on base line by Kelly. Meusel up. Fouled out to Snyder. No runs, no hits, no errors.

Game called on account of darkness.

Our Trust Service What It Is

A notable feature of modern financial development—the Trust Service of a National Bank. It provides the thing that can not be found in any one individual, no matter how experienced, capable, honest or responsible he may be.

Our Trust Service is broad in its scope. It conserves the fortune of the widow and orphan; in it are imposed business trusts of all sorts and conditions. The rich man and also the man of modest means participate in it alike.

Consultation Freely Given.

Clearfield National Bank

"The Bank of Personal Service"

YOLKS + WHITES = EGGS

For every egg yolk in a hen's body she must have enough white to complete and lay an egg. If her feed lacks material for whites she absorbs the excess yolks and gets too fat to lay. "Boarders" don't even pay for the feed they eat.

Purina Makes Hens Pay

Purina Hen Chow and Chicken Chowder, fed together, make more eggs because they contain plenty of *both* white *and* yolk elements. They will get more eggs for you or your money paid for the Chows will be refunded. *Start feeding now.*

RED CROSS PUTS UP $9,739,872

Year's Budget Stresses Relief and Services at Home and Overseas.

MILLIONS FOR VETERAN AID

Over $3,000,000 Allotted to the Disabled—Foreign Work Lessens.

Washington.—Expenditures totaling $9,739,872.47 for carrying through its program of services and relief during the fiscal year in the United States and overseas are authorized in the budget of the American Red Cross, effective July 1, 1922. This total is $2,735,975 less than the expenditures for the last fiscal year, when disbursements reached $12,475,847.69, it is announced at National Headquarters in a statement emphasizing the necessity of continued support of the organization by enrollment during the annual Roll Call, November 11-November 30 inclusive. This total for the budget is exclusive of the large financial operations of the 3,300 active Red Cross Chapters, which, it is estimated, will more than double the total.

War Veterans Have First Call

First call on Red Cross funds is for the disabled ex-service men, of whom 27,487 were receiving treatment from the Government on June 1 last. This work for veterans and their families in a wide variety of service that the Government is not authorized to render and for which it has neither funds nor facilities has the call on $3,030,692.90 during the current year, or about $366,000 more than was expended last year for soldier service. Adding the funds disbursed in this humanitarian work of physical reconstitution following the World War by the Chapters throughout the country will approximate a total for the current year approaching $10,000,000. This work, in the opinion of the Surgeon General's office, will not reach its peak before 1926.

Through its Chapters the American Red Cross is equipped to find the individual ex-service man, help him in his problems and difficulties, provide immediately for his necessities, and open the way for him to the Government compensation and aid to which he is entitled. The extension of this work to the families of such men proves to them that the Red Cross has lost none of its sympathy nor will to service manifested in wartime. Similarly the service goes out to the men still in the Army and Navy, 11,087 of whom were under treatment in Government hospitals on June 1, 1922.

Greater Domestic Program

This year—after five years of constructive effort during the war and after the armistice—brings with it a greater responsibility for domestic service to the American Red Cross. The budget for foreign operations, however, totals $3,404,000, but of this amount $1,834,000 is for medical relief and hospital supplies for Russia, which is a part of the gift made by the American Red Cross in 1921 to the Russian famine relief work of the American Relief Administration program. The child health service in Europe continues, moreover, and $654,000 is appropriated for this work undertaken in 1920. Other items in the stringently diminished foreign program include $200,000 to support the League of Red Cross Societies, $22,000 for nurses' training schools instituted by the Red Cross abroad, and $000,000 for liquidation of the general Red Cross foreign relief program.

Prepared for Emergencies

For disaster relief the Red Cross has set aside $750,000, and for emergencies in Chapter work $500,000 to be available for domestic, insular and foreign demands. This is more than $395,000 above last year's expenditures. For service and assistance to the 3,300 Chapters and their branches $1,293,000 is provided by the National organization.

Other budget items of importance in the domestic program include $200,000 for assistance to other organizations and education institutions for training Red Cross nurses and workers; $190,000 for Roll Call assistance furnished to Chapters; $1[illegible] for unforeseen contingencies.

Of the total budget less than $500,000 is allotted for management in the National organization. No cash estimate, of course, is possible to weigh the value of the service by volunteers in the Chapters.

THE RED CROSS SUPPLEMENTS GOVERNMENT SERVICE BY MEETING THE PARTICULAR NEEDS OF THE INDIVIDUAL EX-SERVICE MAN. THIS WORK CANNOT GO ON UNLESS YOU SUPPORT IT WITH YOUR MEMBERSHIP DOLLAR PAY UP TODAY

ODDS AND ENDS AND THINGS

By J. D. C.

Yesterday "The Colyum" carried a story concerning the operations of the income tax law in America, and showed the amounts the fortunate possessors of both large and small incomes were required to pay over to their government. For the purpose of comparison, read what the average Briton is compelled to give up to his government:

British citizens are just undergoing their annual torture—that of the income tax officials.

Compared with it the Star Chamber and the Spanish inquisition were institutions of mercy. They merely tortured physically. The British income tax leaves the citizens practically without a cent and entirely without self respect.

For the average person in Britain the income tax is five shillings to the pound—25 per cent of income. For the wealthy, when combined with what is known as "supertax," it may amount to as much as 80 per cent of income.

To begin with the average common or garden taxpayer has to fill in forms relating to his income. In their statistical details they would puzzle any well-informed accountant.

With these he does his best. And then the person known as the "income tax surveyor" begins to dispute.

He begins by assuming that the innocent taxpayers is attempting to defraud the Treasury. He demands more and further information and threatens the direct penalties of the law.

The taxpayer makes further returns, but meets with the same fate. He is told that his return is incorrect but that the income Tax Commissioners have assessed him at a certain figure. That figure is usually just three times the amount of the citizen's return.

And the powers of these income tax people are entirely arbitrary, if the amount they demand is not paid to the minute they can do practically what they please. If they wish they can just descend on the taxpayer's home—without notice—and seize and sell all his furniture without more to do.

Process of this kind is beloved of income tax officials. Extreme action of this sort brings them official commendation and increase in salary. For every extra percentage they extort from the taxpayers they receive kudos in kind.

School children deposited $5,500,000 during the last school year in their banking systems, according to the Savings Bank Division of the American Bankers' Association. This is an increase of 40 per cent. over the preceding year and of 100 per cent. over the year 1919-1920.

The association's tabulation gives the full record of 394 systems, which indicates an increase of over 100 per cent. in the number of operating systems over the previous year. There has been a constant increase in the number of pupils participating in the savings systems, as follows:

1919-1920	462,651
1920-1921	802,906
1921-1922	1,271,020

* * * *

The new York World in a feature story is authority for the following statement:

America has "invested" the colossal sum of $960,000,000 since the war in German paper money now almost worthless. America paid 10 cents, 5 cents, 1 cent a mark. America bought 80,000,000,000 paper marks at an average of 1 1-5 cents a mark, $12 a thousand. Today paper marks sell below 70 cents a thousand. America has left what may be worth $56,000,000. Not more.

The victims in America of this stupendous folly, the most gigantic financial delusion in history, have lost $904,000,000. About one-third of the loss is represented by stocks and bonds bought in Germany with marks. The buyers have given to Germany more than twice as much gold as Germany has paid in gold in war reparation payments to date, $365,637,000.

America has paid to Germany a sum equal to one-third the total of the American Civil War debt $2,845,907,626, Aug. 1, 1865. America, victor over Germany, has paid her as much as Germany in victory, collected from defeated France as indemnity after the Franco-Prussian War of 1871—$968,000,000.

The story of this frenzied American buying of the German paper mark never has been told. Only fragmentary, disconnected reports have appeared from time to time. The World presents the first complete report with an analysis founded on official statistics of Berlin and records in America. They have been checked by canvass of the big cities of the United States and the scrutiny of eminent, thoroughly experienced banking and foreign exchange specialists.

The World's estimates are based on Berlin official statistics of Sept. 2, 1922, and latest records of German marks distributors in this country.

All the German paper marks in the world are worth today, at the current price, 70 cents a thousand, about $175,000,000 in American money, less than one-fifth of the vast sum America paid or one-third of them.

Why Suffer From Bronchial Asthma?

Simple Home Treatment Makes Breathing Easy

Just because you start the day tired, listless, worn-out from loss of rest and the difficult breathing of miserable Asthma—do not think you have to stay this way long.

Be strong and well, breathe clearly and easily again by using this simple treatment known as Oxidaze, the prescription of a Worcester, Mass., physician.

For any form of Asthma where the bronchial tubes are irritated, the breathing short and difficult, its healing, relieving action is really wonderful. Sufferers who can't breathe at night and who gasp for a good, clear breath will appreciate the relief and comfort Oxidaze gives.

Oxidaze is a tablet made from essential oils which, when the patient dissolves in the mouth, almost immediately soothes the irritation, clears out the choked up air passages and enables the sufferer to breathe easily and get a real comfortable night's sleep.

It is sold by Bloom's Drug store and all leading druggists who agree to refund the full purchase price of the first package to any sufferer who does not obtain satisfactory relief. Asthmatic sufferers should give Oxidaze a trial. It is harmless and inexpensive.

of prohibition laws in Ohio entirely up to federal authorities.

Wets will fight vigorously to win a decisive victory at the polls to show that the people are tired of existing condition.s Drys, on the other hand, plan to bend every effort to prove prohibition still is the will of a majority.

Degenerating.

In the dream of Nebuchadnezzar it was only the feet that were part of iron and part of clay; but many of us now are getting so cruel in our avarice that it seems as if, in us, the very heart of us were part of iron and part of clay.—John Ruskin.

FOUR WAYS YOU SAVE BY WASHING OUR WAY

Women who keep an accurate account of what it costs to wash at home, and what it costs to wash in this more modern way of ours, say this is what it saves:

Clothes
We conserve the life of clothes because we wash them without rubbing, in the purest of white soap and rainsoft water.

Time
A day and a half a week—fifteen minutes, your washing is done, and you have an entire day to yourself.

Energy
And because you are spared the hard work of washing, you save in energy and health—no tired arms and aching back after washday is over.

Money
Taking into consideration wages, meals, carfare, soap and supplies, this way of washing is really more economical from the staindpoint of money also.

Try this method next washday. You'll find it much more satisfactory all around. Phone and we'll have a representative call.

It is no derogation of the merits and ability of any other ber to say that Associate Justice George Sutherland, er Senator from Utah, brings to the United States Supreme t bench every quality requisite to the discharge of the liarly exacting and delicate duties of the post. If during extraordinarily brilliant career as lawyer and legislator Sutherland never consciously prepared for the seat which ook on the reconvening of the Supreme Court, it is never- ess true that his practice and mental bent have been of racter to make him conspicuously desirable in the place. was a particularly happy choice by the president and one will give increasing satisfaction to the country as Justice erland gets settled to his new work, bringing to bear on constitutional issues submitted to the court a comprehen- of the fundamental law equaled by few and surpassed one of his contemporaries.

As lawyer, as Senator and as author George Sutherland onstrated his familiarity with the constitution and the sions respecting it in such degree that he was recognized n authority on it. The American Bar Association paid te to his talents and learning by electing him president hat organization, a post which none but the most eminent mbers can hope to rise to. In late years he has given special y to the application of constitutional principles to foreign irs. Thus he comes to the Supreme Court at a time when wledge along these lines will be especially useful. He be one of the most conscientious and capable judges who e ascended the bench in a long time.

When Charles Dickens first visited America in 1842 one he things he most desired to see was the Shaker community New Lebanon in Eastern New York. It was then at the ht of its material prosperity, but the novelist was re- ed by the gloom of its doctrines and he also clearly per- ed the economic fallacy which was destined to bring about downfall. It was not the only but the best known society those who believed that all property should be held in mon. Many other colonies were formed in imitation of parent organization and now comes word that one of them, t at South Union, Kentucky, is to wind up its affairs. Its perty will be at auction and, disregarding the original nciple, those members who wish may take their share and wherever they will. Those who desire to continue in the aker faith will probably return to the parent community in w York.

America has witnessed many experiments in communism. seem to have had more of those communities than any ntry in modern times, but it is well to remember that com- nism itself is most ancient and was a condition of primitive n. As the world progressed it discarded the communist a. As men accumulated property they asserted their rights ownership. The opportunity to own property became a erful incentive to endeavor and thus man recorded new ievements that made life more comfortable and pleasant all. The greatest experiment in communism, that of the ssian bolsheviki, has proved a disastrous failure. After only ew months its directors found it necessary to modify their iginal plans.

There are intelligent persons who still hold that in a per- ctly ordered world the communistic scheme would be feas- le. But this is a practical and not an ideal world, and except its earliest times, communism has not "worked." It has en tried and found wanting.

From childhood one is told "there is nothing new under e sun." In a large measure he is told the truth, but not the ole truth, for the old is frequently dressed up in new form as to appear to all intents and purposes really something w. Just now the financial crooks have dressed up an old aud so that it looks like a new speculative opportunity.

The wireless telegraph and telephone are in their infancy. e radiophone is in its experimental stage. Every day some- dy makes a new discovery which is heralded as bringing or the other to perfection. Immediately the invention is pitalized and stock is sold to the gullible public. One sale ceeded the other in rapidity that is amazing, for each new vention is so great an improvement over anything that has ceded it that the new stock needs no argument. It's the d mining scheme and oil fleece in a wireless form, that's all.

So many millions of dollars have been invested in inven- ons that have lived but a day or a week or so that magazines voted to wireless subjects have begun sounding a warning. ho way is there prospect of immense fortunes, for the crooks ho get the money spend very little if any of it on the devel- pment of the mechanisms they herald.

HE OLD HOME TOWN By Stanley.

THE HOME RADIO

How to Make and Use It By A. HYATT VERRILL

Copyright by Harper & Brothers

XXI. TRANSMISSION OR SENDING

I have already described the differences between interrupted waves and continuous waves and how the human voice, or other sounds, if transmitted by the ordinary interrupted waves of wireless telegraph sender, would be broken up and unintelligible. I have also explained how continuous waves are capable of carrying such sounds without breaking them up; but while songs or voices, music, etc., cannot be properly transmitted over an interrupted wave yet code signals or alternate dots and dashes may be transmitted over continuous waves by means of instruments which break or interrupt such waves so that a radiophone may be used to send both telegraphic and telephonic messages and a radio telephone receiver will receive both.

The principal item and most essential part of the sending or transmitting apparatus, known as the radiophone, is the device by which the continuous waves are produced. The instrument which was first devised for this purpose was an ordinary arc-light, but this has now given place to a device known as a vacuum-tube oscillator which is similar to an ordinary incandescent light with specially prepared filament and other devices. The operation of the arc-light was as follows: If a condenser and inductance coil are shunted across the current to such a light, the current is lessened as the condenser is charged and the potential difference across the arc increased. This still further charges the condenser which discharges through the coil and again becomes charged in the reverse direction, the whole operation being repeated over and over again with extreme rapidity—as many as one million discharges a second being usual. Diagrammatically this arrangement is shown in Fig. 56. In which A represents the aerial, B the ground C the coil, D the telephone receiver, E the condenser, F the light, G the dynamo or other source of electricity. The vacuum-tube on the other hand, acts in a very different manner. When this is charged with electricity the filament discharges an increased number of electrons upon a plate with incalculable rapidity Fig 57, and this, by means of various appliances, produces the oscillating currents of extremely high frequency, or continuous waves. Unlike the arc light however, the vacuum tube is employed in receiving the incoming waves varying the current through the filament and so altering the flow of electrons, thus transforming the vacuum-tube from an oscillator to a detector.

It must not be supposed, however, that an oscillator, a condenser, a coil and an aerial and ground are all that are necessary in order to send wireless telephone messages. In addition there are numerous appliances for tuning or adjusting wave lengths, modulating, amplifying and other purposes and in a large station these are very complicated and powerful. For example, the Westinghouse station at Newark uses five 250 watt tubes—two being used as oscillators and three as modulators—and which work in conjunction with two fifty watt speech amplifiers. The current used in lighting is ten volt A. C. with five amperes of radiation. For sending the sounds, microphones are used and to maintain an even cool temperature on the tubes a rotary fan is employed. In this station the coil or inductance is a flat or pancake helix wound with half-inch copper ribbon while a special motor generator furnishes a 2,000 volt current for the plate. The aerial is of the multiple-tuned type of six 150-foot wires at a height of 210 feet above the ground with a counterpoise of twelve wires on thirty foot spreaders twenty feet above the roof and below the aerial. As a lead-in, a ten wire cage on loops two inches in diameter is used.

This, however, is one of the largest and most powerful stations in the world and for amateurs nothing so complete, so large or so powerful is ever required. For ordinary purposes, a very small sending set is all that is necessary and even for the smallest a license is required, for while there is no objection to any one operating a receiving set and listening-in to anything that is in the air, a multitude of signals and sounds being sent is a great nuisance and interferes with every legitimate sending station by confusing the sounds and creating interferences. In fact, the greatest trouble in receiving is interference and it is far more difficult to tune out the weak waves from nearby amateur sending instruments than to tune to the desired signals from the large stations.

Also, it is far more difficult to construct and set up a transmitting set than a receiving set and hence I advise all amateurs to leave the sending alone, or else make no attempt to install or use a transmitting set until thoroughly familiar with the subject and no longer an amateur. But as my book on wireless telephony would be considered complete without a description and instructions as to fitting up sending sets, a few simple directions and figures are given.

Women Dislodest

Continued from Page One

ession is voted by a local attorney who has been asked for advice by many persons:

"The per capita tax is levied under the act of 1922 and applies to all the taxable citizens of 21 years of age residing in the city. The school district can not collect occupation tax, as the per capita tax takes the place of the occupation assessment.

"Under the 19th amendment every woman 21 years of age, has become a tax payer and is subject to the same taxation as a man. It is true that you can not imprison a woman for taxes the same as a man, as the act of 1834 exempts women, imbeciles and infants from imprisonment for taxes, but notwithstanding this fact, taxes are collectible from woman the same as from a man and if a woman has any property, either real or personal, the school district can collect this tax the same as from the man.

"It is as much a debt as a grocery bill or a millinery's bill, and what the woman does not pay, her husband will have to help make up, for the reason that it takes a certain amount of money to run the schools, and if it is not paid in per capita tax, it must be collected by raising the millage."

It is believed that many women who have become delinquents in the matter of paying their school per capita assessment, will step up to the collector's office and pay that tax the same as her husband, when she knows the true legal side of the situation.

STATE FIREMEN ASSOCIATION OFFICERS ELECTED

Harrisburg, Oct. 5.—Jos Morris, of Reading, was elected president of the Pennsylvania State Firemen's Association at today's session of the 43rd annual state convention of the organization. Morris defeated Earl Koch, also of Reading, his only opponent, by nearly 1,000 votes, and the election was made unanimous.

Other officers elected were: Vice president, Jacob Weaver, York; Charles Hoover, Bellwood; George Zimmer, Williamsport; Frank Lastermah, Pittsburg; treasurer, Charles Clark, Wayne.

The election concluded the bulk of the business of the convention which will meet next year in Reading.

BEZDEK MAKES SHAKE-UP IN PENN STATE LINEUP

State College, Pa., Oct. 5.—Far from satisfied with the showing made by the varsity to date, Coach Hugo Bezdek went after the Penn State gridders yesterday and gave his line-up a big shake-up. Gregory was given a chance at quarterback in place of Karstetter and he did well. Simmons, a newcomer, replaced Carson at right halfback and looked good, while McCoy, who has been substituting for Hufford at right end, was shunted to the second team in favor of Artell. Dick Schuster, at left tackle, also came under the axe his place being taken by Johnson and then by Flock. Whether or not these changes are to be permanent Bezdek alone can tell.

TOO MUCH MEAT HURTS KIDNEYS

Take a glass of Salts to Flush Kidneys if bladder bothers you.

Eating too much meat may produce kidney trouble in some form or other, says a well-known authority, because the uric acid excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twings, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so that it no longer irritates, thus often ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia water drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders.

"Hemeralopia."

The state of being able to see in the dark is known as hemeralopia, or day blindness. A person who suffers from this may be known as hemeralopic.

DON'T WANT TO BE ANNEXED

Messrs Fred Eplett, Rebecca A. Myers, Ira D. Smyers, Wm. Spangle, James Conley and B. R. Wagner, property owners at Blain City and Rosebud precincts of Beccaria township, want to remain "Country Jakes," if you please, and cannot bear the thoughts of becoming citified and therefore have filed in Prothonotary Ralston's office notice of appeal from the Ordinance annexing their property to Coalport borough.

The borough Council of Coalport recently at the request of interested property holders were asked to take into their limits a scope of territory in Beccaria township immediately adjacent to the borough line. But the Clearfield county Courts will be asked to prevent "Greater Coalport" from becoming a reality.

When England Had No Dukes.

The duke of Norfolk was brought to the block in 1572, and in him perished the last surviving English duke. For more than half a century England had to do its best—defeat the Spanish armada, conquer Ireland, circumnavigate the globe, lay the foundations of empire, produce the literature of the Elizabethan age—without any ducal assistance.—From Pollard's "History of England."

FORMER RESIDENT DIES SUDDENLY

Lawrence Dale, a former resident of Clearfield, who conducted a gun and automobile repair shop at East Sroudsburg, Pa., for several years past, died suddenly at an early hour this morning. The deceased, who came to Clearfield from Grampian in 1887 to learn the gunsmith trade with the late J. E. Harder, was about 55 years of age. He is survived by his widow, who was Miss ——Gulich before her marriage.

Not Hard to Determine.

There are usually two viewpoints of value of work—that of the worker and that of the employer. The one may overestimate as much as the other underestimates. Approximate value may lie between them, and is easily determined when the laborer is worthy of his hire.—Grit.

Jennie Gets a Shave

Though he is a baby elephant Jennie is having her early by George Fowler her trainer in a New York theater. The razor is four feet wide the shaving brush a foot long and a pail serves as shaving mug.

TWO PHILADELPHIA FIREMEN KILLED IN MIDNIGHT BLAZE

Philadelphia, Pa Oct 5—Two persons were killed and many more were seriously injured in a fire at a manufacturing plant and warehouse at the corner of Bodine and North Vanam streets last night about midnight The fire spread rapidly and three alarms were turned in within an hour A slight explosion broke the windows in the front of the building and scattered fragments of glass among the firemen, injuring several Shortly afterwards the chief was advised that the upper floors of the building were loaded with heavy machinery He immediately ordered the firemen out of the building but before four of them could escape the building collapsed and two were killed

FALL FASHIONS

SHOPMEN GO OVER DAUGHERTY'S HEAD TO GET A DECISION

Chicago, Ill, Oct 5—Railroad shopmen went over the head of Attorney General Daugherty today and asked the Federal court to review the Daugherty injunction proceedings. Don Richberg, attorney for the shopmen, read the appeal. He stated that under the law of 1903 the Attorney General could inform the judge that the matter was of immediate and general public interest and under this plea an immediate hearing could be held. The shopmen want an early disposition of the case.

CIRCULATION STATEMENT

Statement of the Ownership, Management, Circulation, Etc., required by the act of Congress of August 24, 912.

Of Clearfield Progress published daily except Sunday at Clearfield, Penna, for October 1st, 1922, State of Pa., Co., of Clearfield, before me, a Prothonotary in and for the State and county aforesaid, personally appeared G. A. Stewart who having been duly sworn according to law, deposes and says that he is the business manager of the Clearfield Progress and that the following is, to the best of his knowledge and belief a true statement of the ownership, management (and if a daily paper, the circulation) etc., of the aforesaid publication for the date shown in the above caption required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor and business managers are:
The Clearfield Progress.
Publisher Pigressive Pub. Co., Inc. Clearfield Penna.
Editor, G. A Stewart, Clearfield, Pa
Managing Editor, G. A. Stewart, Clearfield, Pa.
Business Manager, G. A. Stewart, Clearfield Pa.

2. That the owners are: (Give names and addresses of individual owners, or if a corporation, give its name and the names and addresses of stockholders owning or holding 1 per cent or more of the total amount of stock)
R. H. Sommerville, Winburne, Pa.
G. A. Stewart, Clearfield, Pa.
Jas. Gray, Clearfield Pa.

3. That the known bondholders mortgagees and other securities hold ers owning or holding 1 per cent or more of total amount of bonds, mortgages or other security holders owning or holding 1 per cent or more of total amount of bonds mortgages or other securities: (If there are none so state.)
None.

5. That the average number copies of each issue of this publication, through the mails or otherwise to paid subscribers during the six months preceding the date shown above is 3725 (This information is required from daily publications only)

G. A. STEWART,
(Signature of editor.)
Sworn to and subscribed before me this 2nd day of October 1922
GEO W. RALSTON
Prothonotary
(My commission expires 1 Monday January 1924.

MT. CARMELITES MUST BE PERFECT ON ELECTION DAY

Mt. Carmel, Pa., Oct. 5. (U. P.)—Old-time election days here are gone forever.

Years ago the polls were in the siderooms of saloons, the places were blue with cigar smoke. Cuspidors were on each side of the election board tables, a pile of salted pretzels was on hand.

The prohibition law took away the liquor at the polls and many changes were made.

New election officers here will not be permitted to smoke or chew tobacco on election day at the polls.

Many women will vote this year and it is the object of the anti-tobacco rule to keep the polling places clean for the ladies.

COAL FACT FINDING BODY TO BE NAMED TOMORROW

Washington, D. C., Oct. 5.—It was announced today at the White House that President Harding will name the coal fact finding body under the Borah act tomorrow. The act provided for the miners to name three, the operators three and the President one. The President was not bound however to accept the men nominated. So far as is known neither operators or miners have made any recommendations.

Good News For You!

Come and see the Electric Home Shallow Well or Spring Pumping Outfit **in action** at the HEATING & PLUMBING Co's Show Rooms, Curwensville, Pa.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Relatives were notified at an early hour Tuesday morning that Mrs. S. C. Watts had passed away. For several months she had been ill at the home of her sister, Mrs. E. A. Null, at Juniata, Pa. She met with an accident while on a visit, resulting in a dislocated hip, from which she never recovered sufficiently to return to her home. She gradually grew worse as the weeks rolled away, and at last other complications from an old trouble setting in proved too severe for her frail vitality, and on Sunday it was noticed that the end was near. She became unconscious on Monday and lingered until the call came of 'well done thou good and faithful servant come to thy reward."

Salome Kittelberger-Watts was the eldest daughter of George and Louise Kittelberger, and was born in Curwensville in June 24, 1863, hence was in her 60th year at the time of her demise. She received her education in the town's public schools and was a bright and industrious pupil, generally leading her classmates in all studies. She was converted to the Christian faith early in her girlhood and from that time until a few months before her death was a constant worker in the church and Sabbath school. She was of a quiet but sociable disposition and in the years that she lived here made many warm friends who greatly admired her religious zeal. We have not words at our command with which to express the sorrow felt in this community at her untimely end, but all rejoice in the assurance that great will be her reward by the Master for her untiring service and work in His vineyard while here below.

On October 4th, 1911, she was united in marriage to Samuel C. Watts of Ferguson township, and their union was one of congeniality and unalloyed happiness, during all their years. No children were born to this union, and they lived for one another.

She is survived by her husband, two brothers and three sisters, to wit: Harry J. and George F. Kittelberger; Mrs. E. A. Null, of Juniata, Pa.; Mrs. W. K. Wrigley and Mrs. S. L. Dougherty, both of Curwensville. Funeral services were held in the Methodist Episcopal church Thursday afternoon at 1:30 o'clock. The services were in charge of her pastor Rev. John C. Collins, assisted by other ministers. Interment of the body was made in the Watts cemetery near Lumber City.

To recite a few words of eulogy from her pastor: "Mrs. Watts made a profession of religion at an early age and united with the Methodist church. From her girlhood days she has been actively engaged in church work, being for years one of the most prominent and successful workers in the Sunday school, the Epworth league, the Woman's Foreign Missionary Society, the Ladies' Aid and for years a leading spirit in the music of the church. One of the chief contributions that she made to religion and the community was her work as teacher of a large organized ladies' Bible class, numbering over one hundred. At the time of her death she was corresponding secretary of the County Sunday School Association, of which organization her husband was president. Her life in all its varied activities and interests was characterized by devotion and loyalty to the cause to which she became allied or to the duty or responsibilty she assumed. It might be said that the advancement of the kingdom of God was her chief work through all the years, from childhood until her tasks on earth were all finished. In her death religion has lost a noble example, the church a faithful member and the community a character of the highest moral value."

Harry Lucas has notified his patrons that after Friday he will take his milk wagon off the route. He will still continue the milk trade at his restaurant and store on South Thompson street.

Dr. J. C. Collins goes to Sandy Ridge on Thursday evening and will deliver his interesting lecture, "Smiles" in Rev. McCurdy's church. This lecture is well worth the small price of admission that will be asked.

Lawrence Voulpe, a brick yard employe, had the misfortune to injure the third finger on his left hand Wednesday, morning, which necessitated the attention of a physician.

Citizens, do not forget that tonight the ladies' auxiliary of American Legion are having a show at the Strand theatre. The pictures are good and all who attend will be satisfied with the entertainment.

The report of the first game of the world's series did not create very much enthusiasm in this place yesterday. We are all Yanks up here and our sympathies lie in that direction.

Lovers of the football game, do not forget that the High School squad goes to Indiana on Saturday. Do not hesitate a minute to proclaim on the hou etops that our boys will come home with honors. Even Williamsport regarded it a great honor to be able to defeat our lads from the mountains. That shows the kind of stuff the High School team is made of. Some one is liable to win the game by score, but everyone who plays the game has the same chance of winning honors. You want to keep your weather eye open for the result of the game Saturday.

Mr. and Mrs. Vincent Kester, residents of New Jersey, spent Tuesday in the home of Mr. and Mrs. F. F. Tate, on George street.

Mrs. James Dale of Clearfield was a guest of Mr. and Mrs. Joseph L. Dale at their George street home on Tuesday.

Mr. and Mrs. Charles Heller, of Lancaster, Pa., visited at the home of F. F. Tate this week. Mrs. Heller is a cousin of Mrs. Tate.

The Curwensville Teachers' Association will hold its first regular meeting next Monday evening in the Patton building at 7:45 o'clock. The regular hour for this meeting is at four o'clock in the afternoon, but at the parent-teachers' meeting last Monday evening the teachers association was asked to hold its first meeting in the evening. The entire public and everybody interested in school problems are invited to this meeting. It is the desire of the Parent Teachers Association to complete its organization after the above meeting. At the meeting Monday night it developed that there was some doubt as to who was invited to the Parent Teachers Meeting. Let it be thoroly understood that this meeting is for all parents and teachers in Curwensville, or connected with Curwensville. In fact the invitation is not limited to Curwensville, but any one who has enough interest to come will be made welcome. So, now, parents and teachers, come out Monday night and help this splendid organization to re-organize and get to work.

The enrollment in the eighth grade has increased to seventy pupils. Prof. Norris is now trying to find a way to lessen this number. It can only come about in one of two ways, viz:—To jam the lower grades and take a room there, or find a room on the outside of the school buildings. If any one knows of a room that can be had he will do the schools a favor by notifying the president of the school board, Dr. H. O. King, or Mr. Norris.

The lrst literary meeting last Friday night was well attended and the program rendered did great credit to the high school. It was unique, orderly, well presented, and showed marked ability on the part of the performers. There was not a hitch in the entire program. Surely such meetings as this one will do much for the high school students. Mr. Norris feels that mental gymnastics are just as important, if not more so, than physical gymnastics. The two societies plan to continue these meetings monthly during the year. Last year the high school did not hold a public function during the year without there being none, and sometimes three other social activities going on in the town at the same time. This year the high school activities were published in the papers to prevent this, but, as some one remarked, "It is starting just as it continued last year." "Our Schools" very respectfully asks that if the public do not wish to patronize their public activities that no counter activity be staged against them. Everybody knows that it is not intended that way, but when it continues through nine public activities in succession it becomes discouraging, and it is only right that attention should be called to this double staging. The schools deserve our support, so do other activities, but too much on the same night lessens the attendance and patronage everywhere.

A public school teacher was asked after he had been in a deer camp last December, if he got what he went after. His reply was, "I certainly did and got it a-plenty." The next question, "What did you get?" Answer, "Good, vigorous exercise." "Why," said he, "I can now do in one day what it took me three days to do before going hunting." This school teacher did not kill any game. We believe this colloquy is applicable to our football boys. They got what they went after, "Good vigorous exercise a-plenty." They did not bring the winning tally home along. They left it at Williamspotr where it belongs. Williasport had to use 23 men against our boys. That fact tells its own story. They had a much larger reserve to draw from and it made it mighty hard for our boys to have to play against so many fresh men. This factor had much to do with Williamsport's winning the game. The victory to our boys was greater than many games they have won in the scoring. They played a big high school and came off with honor. Even Williamsport is loud in its praise of our team. Curwensville High School had added another STAR to its athletic glory. Boys, we congratulate you most heartily.

Last week Dr. H. O. King, president of the School Board, asked that some pupil give him four good reasons for providing more rooms for the school children. About twenty reasons are handed in. The following five reasons are selected from the number:

1. An average of over 50 pupils per room.
2. The eighth grade has 70 pupils in one room.
3. The air cannot be kept fit to breathe in some of the rooms.
4. Many children have to sit on chairs with no desk to write on, and some have to sit on the front seat with no desk to write on.
5. Teacher and children become dull, and often sick, and have to go out for fresh air.

AILING WOMEN OF MIDDLE AGE

Mrs. Linton Tells How Helpful Lydia E. Pinkham's Vegetable Compound is at This Period

Denver Colorado.—"I have taken Lydia E. Pinkham's Vegetable Compound for seven years and I cannot tell you the good it has done me. It is good for young and old and I always keep a bottle of it in the house, for I am at that time of life when it calls for Lydia E. Pinkham's help. My husband saw your ad. in the papers and said 'You have taken everything you can think of, now I want you to take Lydia E. Pinkham's Vegetable Compound!' So I let him get it, and I soon felt better and he told me 'I want you to take about six bottles.' So I did and I keep house and do all my own work and work out by the day and feel fine now. I tell every one about the Vegetable Compound, for so many of my friends thought I would not get well."—Mrs. R. J. LINTON, 1850 West 33d Avenue, Denver, Colorado.

After reading letters like the above, and we are constantly publishing them, why should any woman hesitate to take Lydia E. Pinkham's Vegetable Compound if she is in need of help? It brings relief where other medicines fail.

EVERY GIFT THAT YOU BUY HERE IS A GIFT THAT LASTS

When you buy some little gift for her you know that you are buying a gift that will last. That's been true of the things we have sold from the very opening of our shop.

There is such a wide variety of things for you here that it will be more or less of a difficulty to select the one you want, but you'll be mighty hard to please if you don't find just what you are looking for.

Drop in before you make that purchase and see if what you want is not awaiting you here.

W. W. O'Brien

FOOTBALL TOGGERY

It's here boys and here in plenty. The crisp football days have brought out the teams in various sections of the city and the High School team is working out every night for the opener next Saturday.

If the teams playing 'round the city knew that everything that you'll need is right here for you and ready to be used, you'd be right in and make the necessary purchase for the proper protection of your body when you play.

Come in and see what you want—we have it.

TOWN PESTS

That-Kid-Next-Door doesn't Really look like This; he just Acts like it. What he Doesn't Do Isn't Worth Thinking of, and what he Does Do Sometimes makes him an Awful Pest. A Kid like this must have Inspired that Famous Saying, "Boys should be Buried between the Ages of Four and Fourteen!"

BUSINESS MEN OF

Continued from Page One

St. Mary's Chamber of Commerce, as Secretary. It was decided to elect an Executive Committee of seven members from each county at the meeting for permanent organization to be held at St. Mary's on Wednesday, October 11th, and in order that the right men should be chosen from each county, a county chairman was named with power to choose the other six before next week's meeting These chairmen are: For Clearfield county, A. E. Leitzinger; Elk county, J. E. Jackson, of St. Mary's; Cameron county, Hon. D. J. Goodnough, of Emporium.

The proposed route would make the distance between Clearfield to Buffalo 180 miles. It would cut in half the distance betweenClearfield and St Mary's and Clearfield and Ridgway. Over the proposed northern central route the distance from Clearfield to either of these Elk county towns is but 87 miles while by the present traveled route via DuBois it is just twice that distance.

The matter of restoring the route to the Sproul plan or system will be presented to the coming session of the Legislature and a legislative Commimttee was named to draft the necessary legislation. This committee is composed of the following well known Clearfield attorneys: Hon. Allison O. Smith, A. H. Woodward and John C. Arnold.

Those from Clearfield present at the meeting were: Hon. A. O. Smith, A. E. Leitzinger, William Leitzinger, A. H. Woodward, Charles T. Kurtz, Dr. J. Paul Frantz, H. C. McCloud, John C. Arnold, John F. Leitzinger, A. L. Kline, J. L. McGinnis, M. F. Bratton, L. C. Norris.

Has Big Butter Industry.

The city of Cork, Ireland, is one of the greatest butter centers in the world. It is estimated that one year's export of butter amounts to 750,000 tons.

Lines to Be Remembered.

Guard well your spare moments. They are like uncut diamonds. Discard them and their value will never be known; improve them and they will become the brightest gems in a useful life.—Anonymous.

JEFFERSON COUNTY OFFICIALS GREAT HELP TO MR. DAVIS

Philadelphia, Pa., Oct. 4.—Judge Corbett and District Attorney Morris of Jefferson county are public officials worth while. They stand for law enforcement and the support of the constitution. So far at the present term of their court the grand jury has returned thirty-four indictments in thiryt-one liquor cases. Of these defendants one ran away, one was found not guilty but required to pay the costs, thirty were either convicted by the jurors or entered pleas of guilty and fined from $100 to $2500 each, totaling $11,450, thus enriching that county to that extent. In addition to the fines and costs eighteen of the defendants were also given prison sentences ranging from one montn in the county jail to two years in the penitentary. State Director Davis was much pleased upon the receipt of this report and says sixty-seven such counties would make every good citizen proud of Pennsylvania.

32 CALIBRE BULLET FLATTENED AGAINST HEAD LIKE QUARTER

Pittsburg, Pa., Oct. 5. (U. P.)—Speaking of hard substances, it is generally admitted that Albert's head takes all honors.

In criminal court Albert Taylor, a negro of Fair Oaks, testified in a felonious assault and battery trial, exhibited a 32 calibre lead bullet, flattened to the shape of a quarter. He said the slug was removed from beneath his scalp, after he had been shot in the head in a melee near his home last May.

George Jackson, a negro of Greensburg, who was alleged to have fired the shot, was found guilty of assault and battery and sentenced to serve 60 days in the workhouse, after being in jail 85 days awaiting his trial.

He'll Be King

Probably this baby doesn't know he'll be a king some day. He's the Prince Michael, son of the crown prince and princess of Rumania.

A close shave! MENTHOLATUM comforts and heals.

NEW COMMANDER OF LEGION ANNOUNCES POLICIES OF TERM

Wilkes-Barre, Pa., Oct. 5. (U. P.)—The first step of the new officers of the Pennsylvania Department of the American Legion will be to aid needy veterans to secure speedy adjustment of compensation claims, according to W. B. Healey, newly elected State commander.

After the care of disabled men, boosting of the Legion's membership in the State will be the principal concern of the officers. There are now 867 Legion posts in the State with a total membership of 57,000.

But He Finally Weakened.

"What's become of Rantington Roarthe eminent tragedian?" "He's going small parts in the movies," "I used to say he'd starve before he'd prostitute his talents on the screen," "Maybe he did. He was considerably underweight when he signed up."—Birmingham Age-Herald.

City on Twenty-six Islands.

Ghent, Belgium, stands on 26 islands, which are connected with each other by 80 bridges. The city is noted as the birthplace of Charles V and John of Gaunt. It is associated with American history by being the scene of the treaty of December 24, 1814 which terminated the second war between the United States and England.

And It Always Has Been.

"Talk will be cheap," remarked the man on the car, "just as long as the supply is greater than the demand."—Newark Star Eagle.

Exploited by the Camera.

Some of the satellites of Jupiter were discovered photographically, and have never been seen except on photographic plates.

Not Always Helpful.

Many a worm has turned, only to get itself trapped on the other side.

USE SULPHUR TO HEAL YOUR SKIN

Broken Out Skin and Itching Eczema Helped Over Night

For unsightly skin eruption, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even fiery, itching eczema is dried right up.

Get a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

Small Matter, Anyway.

Our neighbor's wife bought some household labor-saving article from a slick-tongued salesman the other day. When her husband came home she told him about it. "What is this device for?" he asked. "Gracious," replied the wife, "the agent talked so fast I forgot to ask him."—Chicago Daily News.

Chinese Use of Ginseng.

The little yellow root of the ginseng plant is used by the Chinese as food and medicine. Specimens resembling the human body often command their weight in gold because of supposed occult virtues. Neither species of ginseng, however, is considered by the occidental physicians to have any pronounced medicinal qualities.

Road Twenty Centuries Old.

England's oldest road, which must have been made at least 2,000 years ago, runs between Winchester and Canterbury.

Gossip For Tonight's Tea Table

Mrs. C. R. Raup and daughter Catharine of Jersey Shore are visiting friends in Clearfield.

Mrs. S. L. Warner was called to her old home in Ohio today because of the serious illness of her mother.

Mrs. George W. Glenn of Ashtabula, Ohio, is visiting at the home of her sister, Mrs. C. Thornton Hile.

Born, to Mr. and Mrs. A. C. Edwards at their home on Reed street at 5 o'clock yesterday afternoon, a son.

Harry Gulich left at 1:15 for East Stroudsburg, Pa., where he was called by the death of his brother-in-law Lawrence Dale.

GIRL SCOUT NEWS

The new High School troop will have their first meeting at the home of Mrs. Clifford Shaw, St. Charles Apartments, Third street, on Saturday afternoon at 2:30. Members of that troop are as follows: Ruth Parker, Lola McLaughlin, Miriam Turner, Eva Williams, Edna Mohney, Edith Mohney, Isabel Conklin, Clara Thomas Julia Brantner, Agnes Peterson, Evelyn Peterson, Imilda Milligan, Miriam Shively, Laura Rupert.

Scouts will be glad to hear that manuals will be on sale at Kurtz's as soon as they can be ordered. Troops will be given their numbers before next meeting.

"FARMER" WILL THOMPSON ALSO

Harry Kennedy started something when he brot that peck of pears to The Progress office. Harry is not the only farmemr on West Side with friends in this office because our old friend "Farmer" or Undertaker Will Thompson placed the editorial force under lasting obligtions this afternoon when he presented us with a bag o as fine pears as we ave sunk our false teeth into this season.Thanks Bill, many thanks.

A CLEAR COMPLEXION
Ruddy Cheeks—Sparkling Eyes
—Most Women Can Have
Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c

FOR THAT SUMMER COLD TRY CLARK'S COLD & FLU CAPSULES

WONER SATISFIED THAT HIS DRY LAW IS NOT EFFECTIVE

Sharon, Pa., Oct. 5.—Representative George E. Woner, author of the famous Woner bill, designed to enforce prohibition in Pennsylvania, is ready to aid Pinchot in bringing about repeal of that bill and the Brooks High License Act. He so informed the nominee yesterday wher Pinchot and his fellow candidates spoke at Butler, Mr. Woner's home town.

Woner Drafting Substitute Bill.

Mr. Woner not only is willing to work for the repeal of the bill which bears his name, but is engaged in drafting substitute legislation for the liquor measures now on the books. He is in full accord with Pinchot's ideas respecting the liquor traffic and says he will be one of the new Governor's most earnest supporters during the legislative session.

Mr. Pinchot was cognizant of Mr. Woner's ideas respecting repeal of the Woner act, for they discussed the matter as long ago as June last, when Mr. Woner spent some time at the Pinchot home at Milford.

Much interest attached to what Mr. Woner might say. In his address he did not specifically mention the act which bears his name; neither did he directly discuss Pinchot's "Dry planks," but he said he indorsed the program as a whole and the nominee as a "man who would blaze the way to better public service, who would upbuild the Government, straighten out crooked things in State affairs and insist upon rigorous enforcement of the law."

"Mr. Pinchot," he said, "has stood firm against the most powerful pressure. He has stood firm when many a strong man would have quailed. He will do at Harrisburg exactly what he says he will do."

Crippled State Team Prepares To Battle With Gettysburg Men

State College, Pa., Oct., 5.—Battered and sore from the hard game with William and Mary College last Saturday, the Penn State gridders now face another stiff early season encounter with Gettysburg this week. The battlefield boys held Lehigh to a no-score tie game last week and they are requected to test Bezdek's crippled team to the limit.

All McCoy, former yearling end, was at Hufford's place in the varsity line-up and the youngster will probably fill the hole at right end in good shape His experience counts against him, but the coaches are giving him plenty of attention and he is steadily improving. The hole at quarter back is still a big one, pending word from a Pittsburgh specialist as to the condition of Mike Palm's broken ankle. The coaches are clinging to the hope that Mike wil lnot be out for more than a couple of weeks, in which case he could get back into the lineup for the big game with Syracuse in New York City the last of this month.

One bit of encouragement this week has been the improved playing of the line. The powerful Nittany forwards played great defensive football in the game last Saturday, stopping the southern attack on every occasion. They were not so good on the offensive, however, and the coaches have been working them extra hard this week to develop speed. With Hufford gone from right end, on extra burden has been placed on the shoulders of Tiny McMahon, giant right tackle, to bolster up that end of the line, and the coaches believe that the big fellow will rise to the emergency and play the best football of his career.

"All is Vanity."

The vanity of human life is like a river, constantly passing away and yet constantly coming on.—Pope.

This, the biggest bass horn in the world, has just been made in New York. It's nine feet high and the bell's four feet in diameter. It could be heard one-half mile—if anyone had lung power enough to blow it.

REV. ARMSTRONG TO SPEAK

The regular weekly meeting of the Clearfield Rotary Club will be held this evening at the Hotel Jordan at 6 o'clock.

Thee speaker of the evening will be Rev. W. L. Amstrong, the energetic paostor of the West Side Methodist church.

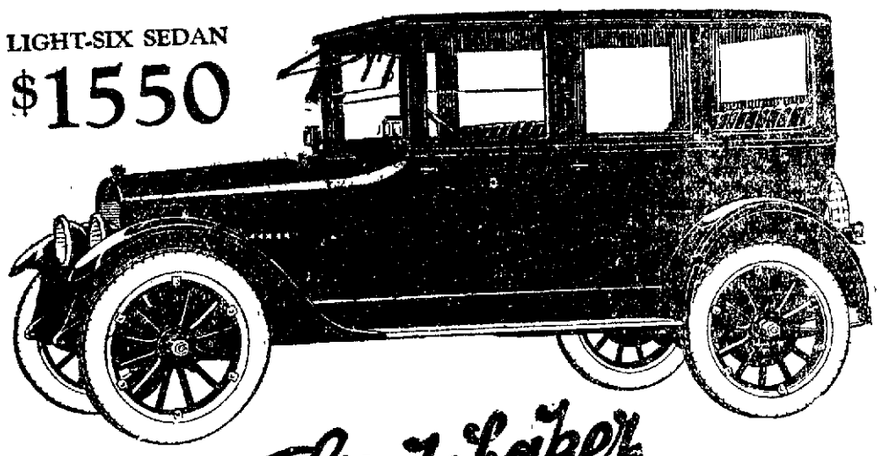
It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. Get it today and save all further distress.

LIGHT-SIX SEDAN
$1550



Studebaker

Let Us Show You the Difference!

Vibration is destructive. It shortens the life of a car. It takes the pleasure out of riding because it causes rattles, squeaks and other irritating noises.

Vibration is particularly annoying in closed cars.

There is no perceptible period of vibration in the Studebaker Light-Six at any speed. This is due in part to Studebaker's method of machining the crankshaft and connecting rods on all surfaces. No other car, at anywhere near the price, follows this practice.

Lack of vibration and the quiet, smooth-running motor find quick approval from everyone who rides in the Light-Six Sedan.

And every driver is similarly enthusiastic over the way it throttles down to a walking gait in high gear—and the quick response that follows the touch of the accelerator.

Aside from its mechanical excellence, the Light-Six Sedan is notable for its sterling coach work. The substantial body, like the chassis, is built complete in Studebaker plants. Materials and workmanship are of highest grade.

Long, semi-elliptic springs and deep, restful, nine-inch cushions afford genuine comfort. Upholstery is of a rich, mohair velvet plush—good looking and durable.

Today's price is the lowest at which the Light-Six Sedan has ever been sold.

The name Studebaker on your car is the best protection you can have!

Exhaust heater. Eight-day clock. Thief-proof transmission lock. Cowl ventilator. Side coach lamps. Rain visor and windshield cleaner. Inside locks on three doors and outside lock on right-hand front door. Silk roller-curtains. Four doors that swing wide open. Dome light. Mohair velvet plush upholstery.

PLEASE BE PATIENT IF YOUR MILK IS LATE

The drouth is affecting our milk deliveries in this way. The farmers in many of the sections are hard put for water and in many cases do not have water to cool their milk at home and have to wait until it reaches our plant.

Our trucks are making the usual rounds of the farms but, owing to the conditions, our reserve stock of milk in the cooler is so low that the drivers have to make the second and third trip to the depot for a fresh stock for your table.

We would rather do this and have your milk a trifle late than run the chance of having some indifferent quality delivered to you.

"Royal Quality Flour House,"—Next to the B. R. & P.

THE PROPER TOILET WATER

There's as much difference in toilet waters as there is between day and night. And yet, there's one here that will please every taste. There's the ones with the delicate perfumes that carry just a hint of perfume and then there are others with the heavier odors.

Whatever your taste may be, we can supply the toilet water you want.
